# Goal Pads

## VPG 7000 VELOCITY 2

The Velocity 2 goal pad continues with performance enhancing features and product innovation that the Velocity pad pioneered to become the standard by which all other goal pads are measured. The Velocity goal pad is designed to fit the style of the modern Pro-fly style goaltender. It provides the pinnacle of performance, giving enhanced blocking surface area for maximum net coverage. This unique design allows the tops of the pads to fill in the five-hole area, and seal the pads along the ice surface to help eliminate any openings for even greater net coverage.

The Velocity pad features a Balance Stabilizer design. This gives the goaltender increased pad control by allowing the goaltender's body weight to be distributed over a larger surface area. This design moves the goaltender's center of weight to the pads center of balance on the inside edge making it much easier for the goaltender to balance on the inside edge of the pads and keep the pads square to the shooter.

The Balance Stabilizer design enhances performance further by reducing the amount of strength required to hold body position and allows this strength to be transmitted into quicker faster movement. The additional surface area with the traction grip design provides greater control and allows more controlled

lateral movement while on the ice. The graphics are designed to make it harder for a shooter to identify the inside edge and five-hole area of the pads.

- Full leg cradle holds the leg parallel to the ice with adjustable knee lifters to elevate the knees from the ice surface. This limits stress on the knees and hips and allows for greater leg extension
- Full knee cradle with adjustable elastic and Velcro strap to secure knee into pad for additional control
- Balance Stabilizer inside edge for greater stability while down on the ice in the Pro-Fly position
- Large outside rolls with square edge prevents puck skip-over
- Thigh guard with wider attachment, for better five-hole coverage and increased protection
- Wider profile at the top thigh rise and lower skate area for added net coverage
- Flex-Pac internal padding allows the pad to form to the goaltenders leg and helps in rebound control and protection
- Available in sizes 30", 31", 32", 33", 34", 35", 36", 37", 38" and custom sizing

# Goal Pads

## VPG 8000 EPIC

The Epic goal pad is designed to instantly follow the movements and reactions of the goaltenders leg to give the ultimate in control for quick rapid movements. Full length shin cradle and knee cradle with Velcro adjustment strap, along with inside edge torsion drive bars, transmit every movement directly to the body of the pad for instant reaction and quickness. The torsion pads also function as a leg and knee lift to keep the leg parallel off the ice and reduce stress to the knees and hips and allow greater leg extension. Wide inside edge and knee platform allow for easy balancing and movement on the inside edge while down on the ice and keep the face of the pad square to the ice for increased blocking area. The unique stabilizer skate strap keeps the pad from twisting on the leg and improves pad positioning to cover more net area. This innovative feature along with dual skate straps helps drive the pad with quicker rotation to get complete coverage and firmer seal while going down to the ice and the full length inside edge five-hole rolls give additional coverage. Knee hugger shaping in the top section of the pad keeps the knee from drifting away from the knee cradle and provides greater pad control, body balance and increases protection. The knee hugger design along with a tall thigh rise and solid thigh guards function to provide full five-hole coverage while down on the ice. Scoop shape and angle designed to provide additional coverage along the ice surface. Engineered and constructed with

temper foam padding in the pad face at the knee and shin for reduced rebound, added puck control and increased protection.

- Designed to hold leg parallel to ice while down in the Pro-Fly position to limit stress on knees and hips
- Balanced construction for lighter feel
- Tall thigh rise for five-hole coverage
- Skate stabilizer strap for added control
- Wide square shape for added net coverage
- Full length five-hole roll
- Large outside roll to prevent puck skip over
- Full leg and knee cradle
- Full length inside leg protection
- Internal torsion drive bars for quick response
- Flex-Pac internal padding for flexibility and quick break-in
- Closed toe design
- Double five-hole roll at inside shin area
- Available in sizes 31", 32", 33", 34", 35", 36", 37", 38" and custom sizing

# Goal Pads

## VPG 6000 LEGACY

The Pro model Legacy goal pad features a wider and taller thigh rise with a wider pad side profile to give greater blocking surface for increased five-hole coverage. The wider and taller thigh rise and wider lower pad profile give greater blocking surface and help cover the five-hole area. The Legacy 6000 design provides a pad that is fully configured and optimized for the Pro-Fly style of play, yet can still be used for any style of goaltender. The pad features our unique Balance Stabilizer on the inside edge to enhance performance and allow quicker faster movement while down on the ice.

- Full leg cradle with wider leg channel holds leg parallel to ice, with adjustable knee lifters to elevate knee from the ice surface to limit stress to the knees and hips, and allows for greater leg extension and quicker rotation
- Full knee cradle with elastic strap with Velcro adjustment
- Top thigh rise with taller sizing and wider profile to give better five-hole coverage while down on the ice
- Thigh guard with wider attachment point for added stability and increased protection
- Lightweight balanced design gives greater pad control for quick movement
- Balance Stabilizer matches goaltender's center of weight and the pad inside edge center of balance for greater control while down on the ice and facilitates quicker lateral movements while on the ice
- Raised inner roll on pad face to deflect pucks away from the five-hole area
- Diamond grip material in leg channel and knee cradle gives added control
- Closed toe design for added protection and increased lower pad stability
- Wraparound knee rolls with integrated knee bars for increased flexibility and easy transition from pad face to side
- Available in sizes 30", 31", 32", 33", 34", 35", 36", 37", 38" and custom sizing

These and many more colors available

## Goal Pads

### VPG VAULT

All new for 2006 the Vault pro goal pad is designed and engineered with a flat face design for larger blocking surface. Wide front profile shape with squared off taller top thigh rise gives added net coverage and fills in the five hole area. Large square shaped outside rolls help prevent puck skip over. Pre-formed pad shape and sectioned knee rolls along with flex points on the outside rolls provides for excellent pad flex to allow the pad to form to the movements. This also provides added pad control for faster pad response during movement. Full knee and calf cradle along with adjustable knee lifters keep the knee elevated from the ice while going down. This reduces stress on the knees and hips and allows greater leg extension for additional net coverage while down on the ice. Square inside pad edge allow the pad to be positioned for maximum stability that also provides maximize blocking area while down on the ice.

- Internal knee cradle with adjustable strap for pad control
- Adjustable knee lifters for improved performance
- Light weight flexible design for faster and quicker movement
- Full length inside edge medial rolls and knee bars
- Five-hole area blocking style thigh guard
- Full leg channel cradle for added pad comfort and control
- Taller design thigh rise for added five-hole coverage
- Available in sizes 32", 34", 36", 38"

These standard colors available

### VPG 3700 VISION

All new for 2006 the VPG 3700 features an all new design and shape that has been engineered and optimize for quick rapid movement and control for precision pad placement that provides maximum net coverage. Wide profile front surface design with squared top inside thigh area gives additional five-hole coverage when down to the ice. Angled wedge shaped outside roll profile for puck deflection. Low rebound flat pad face for precision puck control. Square inside edge provides a solid balance point for the goaltender while down on the ice and provides a thigh seal against the ice to maximize coverage.

- Full knee cradle and leg support cradle
- Knee lifter system to hold the knee from the ice and allow maximum leg extension
- Flat high density construction thigh boards
- Full length inner edge five-hole roll
- Wedge shaped outside roll
- Skate stabilizer strap to prevent pad rotation
- Available in sizes 31", 33", 35", 37"

These standard colors available

## Goal Pads

### VPG 7070 VELOCITY 2

The VPG 7070 Velocity 2 pad is a scaled version of our pro model. Designed and engineered to provide the ultimate in performance and protection but in intermediate sizing to meet the high caliber needs of the serious young adult goaltender. The Balance Stabilizer features provides even greater mobility and stability while down on the ice.

- Full leg cradle holds the leg parallel to the ice, with adjustable knee lifters to elevate the knees from the ice surface, this feature limits stress on the knees and hips allowing for greater leg extension
- Full knee cradle with elastic strap to secure knee into pad
- Large outside rolls with square edge for maximum blocking surface and to prevent puck skip-over
- Intermediate sizing and design 1" narrower than pro model
- Design allows top of the pad and integrated thigh guard to fill in five-hole area
- Tapered inside toe area at skate allows for quicker transition when getting up from the ice by allowing the skate blade to make contact with the ice surface quicker
- Diamond grip synthetic material on the internal leg area provides additional control and repels water to keep pads light
- Light weight allows for increased pad control and mobility for quicker reaction and movement
- Available in sizes 27", 29", 31", 32"

## Goal Pads

### VPG 800 SUPER JUNIOR EPIC

Our new 800 Epic pad features all new sizing with a 10 5/8" width for a new enhanced size and proportions for a junior goal pad. Scaled in design and shape from our Pro 8000 model allows the 800 Epic pad provides an unmatched level of performance in a smaller size pad. Full knee cradle with knee torsion drive pad give quicker pad reaction and maximizes speed of movement. The drive pad powers the pad to the ice with more control and elevates the knee from the ice surface that helps limit stress on the knees to allow greater leg extension. Wide inside edge and knee platform allow for easy balancing and movement on the inside edge while down on the ice and keeps the pad face square for added blocking area. Knee hugger shaping keeps the knee area from floating away from the knee and positions the tall thigh rise to fill in the five hole area quicker when going down to the ice. Special foam layering behind the pad face lowers rebounding for added puck control.

- Double inner edge five-hole rolls
- Closed toe design
- Internal drive bar pad for quicker response
- Unique stabilizer skate strap to prevent pad twisting
- Balanced construction for lighter feel
- Knee hugger design and shape
- Skate stabilizer strap
- Tall thigh rise
- Square top thigh rise for added net coverage
- Available in sizes 28", 30", 32"

These standard colors available

### VPG VAULT JUNIOR

All new for 2006 the junior Vault leg pad is designed and engineered with proportional width sizing to provide enhanced fit and maneuverability for younger goaltenders. Wide front profile shape with squared off taller top thigh rise provides added blocking area and fills in the five hole area. Large square shaped outside rolls help prevent puck skip over. Pre-formed shape and sectioned knee rolls and flex point in the outside roll construction provides for excellent pad flex to allow the pad to follow all leg movements. This provides added pad control for faster pad response and reaction.

- Full knee cradle with adjustable Velcro strap
- Square inside edge for proper pad positioning
- Full length inside edge medial rolls and knee bars
- Tall thigh rise design for added five hole coverage
- High density construction thigh guards
- Full inside edge knee and calf guards
- Available in sizes 26", 28", 30"

These standard colors available

## Goal Pads

### VPG 700 VISION

All new for 2006, the VPG 700 Vision junior goal pad is an all new design and shape that has been engineered and optimized for quick rapid movement and control for precision pad placement. Wide front profile with square top thigh area provides excellent net coverage and function to give better coverage in the five-hole area while down on the ice surface. Angled wedge shaped outside rolls provide for puck deflection. Inside pad edge with dual five-hole rolls provides solid landing surface for easy pad positioning to keep maximum blocking area.

- Full knee cradle with adjustable straps
- Wedged outside rolls
- New graphic makes identifying five-hole more difficult to shooter
- Skate stabilizer strap to prevent pad rotation
- Flat high density construction thigh boards
- Available in sizes 23", 25", 27", 29"

These standard colors available

### VPG 500 EPIC

New for 2006, the VPG 500 Epic goal pad is designed for the younger goaltender to give great protection yet provide easy break-in with added flexibility, comfort and very light weight. Large thigh guard provides extra protection to the knee and thigh area. Full length inner knee and calf protection keep the leg from impacting the ice surface while going down and help stabilize leg position for added pad control and provides added protection from puck impacts. Proportionally designed and constructed in each size for proper fit that places all the flex points in the correct location to maximize performance.

- Large thigh guard
- Full length inside leg protection
- Closed toe design
- Tie on toe system to attach to skate
- Deep leg channel for added pad control
- Available in Black/Silver/White color only
- Available in sizes 20", 22", 24", 26"

EPIC

## Arm and Chest

# EPIC

### VP 8000 EPIC

This design was created to provide for quick rapid body movements while still providing maximum net coverage. Arm construction features a Dura-Mesh base that provides for increased flexibility and is anatomically shaped and optimized to keep arm padding properly aligned and increases ventilation for reduced heat retention. Extra wide and longer styled shoulder floaters provide added stability for puck deflection and for added net coverage. Large plastic reinforced sternum plate for increased protection. The innovative chest pad weight suspension system supports the weight of the unit over the shoulders for even weight distribution and balance for a lighter fee and features full adjustability for a custom fit.

- Reinforced sternum plate
- Four point adjustable elbow pads

- Molded side elbow protection
- Large shoulder floaters
- Shoulder extension for additional net coverage
- Articulating chest pad design with angled lower flex points
- Wide mid arm floaters
- Tapered forearm padding
- Adjustable wrist and arm straps
- Dura-Mesh arm construction for added flexibility
- Cushioned chest pad backing
- Side rib cage extensions
- High density spine protector
- Available in sizes XS, SM, MED, LG, XLG

#### ADULT FITTING GUIDE

XS	5'	to	5'2"
SM	5'3"	to	5'5"
MED	5'6"	to	5'9"
LG	5'10"	to	6'
XLG	6'1"	to	6'5"

## Arm and Chest

### VP 7000 VELOCITY 2

The Velocity 7000 V2 arm and chest protector features lighter weight with improved comfort and movement for an overall improvement in performance along with reduced break-in. Advanced design and construction that matches the anatomical movements of the body gives added flexibility and protection with a superior fit. Large shoulder floaters with multiple flex seams features an internal polycarbonate layer of Lexan for added shock dispersal for increased protection. Unique three piece layered chest protector constructed with multi density foams gives improved fit and increases shock dispersal and the sternum area features another layer of polycarbonate Lexan for added protection in critical areas. Full molded and contoured arm protection wraps around the inner areas of the arms for increased coverage, molded four-point adjustable elbow pads and adjustable wrist and arm

straps provide for custom fit.

- Unique Velocity design chest protector for superior protection
- Wide shoulder extensions
- Wraparound protection for arms
- Lighter weight for quick movement
- Tapered forearm for padding
- Anatomically designed for ease of movement
- Balanced design for even weight distribution
- Extra wide arm floaters with lace adjustment
- Chest pad side extensions
- Low rebound design
- Molded adjustable elbow pads
- Lexan chest pad insert
- Available in sizes XS, SM, MED, LG, XLG

Standard Color

## Arm and Chest

### VP 6000 LEGACY

The VP 6000 Legacy arm and chest protector feature several unique design elements for increased protection and mobility. The double layered chest pads moves and articulates and provides a double layer of protection along with an added plastic internal insert over the sternum area. Contoured shoulder floaters increase blocking surface and feature angled break seams with flex points to allow for greater shoulder range of motion on high shots. The design of the chest pad extends up and over the clavicle area and back over the shoulder blade to support the weight of the unit and is adjustable for a custom fit and comfort. Large wide arm floaters provide for extended net coverage and add protection. Anatomical design of the arms allows for a full range of motion for quick rapid movements. The design and construction features reduced weight and allow for quicker drying times.

- Special high density laminated chest pad construction
- Added sternum protection
- Air cushioned chest pad
- Dual chest pad harness
- Molded arm protection
- Large arm floaters
- Molded foam and plastic reinforced elbow pads
- Adjustable back pad with HD foam spine protection
- Molded shoulder cap
- Molded shoulder cap extensions
- Multi-flex chest pad design
- Available in sizes SM, MED, LG, XLG

LEGACY

## Arm and Chest

### VP VAULT

The new Vault pro arm and chest protector features an anatomically designed body pad with angled protective blocks arranged to align the flex points of the chest pad to match body movements. This also allows the unit to keep the protection properly positioned for increased comfort and protection. Dura-mesh arm base construction provides added ventilation and flex to provide quick break-in and comfort. Wide profile shoulder floaters with flex points give greater net coverage and increase the range of motion in the shoulder areas. Large reinforced sternum plate adds extra protection to the critical area in the chest. Wide arm floaters add protection and feature solid construction with high density inserts to provide added stability under impacts for better puck deflection.

- Anatomically designed chest pad with bottom flex flap
- Large reinforced sternum plate
- Adjustable wrist straps
- Four point elbow pad adjustment
- Molded arm protection with taper in forearm
- Molded shoulder caps
- High density reinforced back protector
- Available in sizes XS, SM, MED, LG, XLG

VAULT

### VP 3700 VISION

The new VP 3700 arm and chest protector incorporates a unique split lower chest pad with side sections that move to allow for additional flex while in a crouched position. Large sternum plate on the chest pad for increased protection. Wide shoulder floater extend into the rib area for added protection and are more stable under impacts for additional net coverage, and feature side flex design that allow the arms to be brought in tighter to the body.

- Adjustable wrist straps
- Molded arm protection
- Four point adjustable elbow pads with molded plastic reinforcement
- Extra flex chest pad design
- Large mid arm floaters with side molded elbow protection
- Adjustable back padding
- Larger shoulder floaters
- Available in sizes SM, MED, LG, XLG

VISION

## Arm and Chest

### VP 800 EPIC SUPER JUNIOR

All new for 2006 the Epic 800 Super junior arm and chest protector with enhanced sizing to fit larger goaltenders in the junior category. The design is optimized to give maximum blocking surface and protection with large shoulder floaters and extended shoulder caps. Wide mid arm floaters feature molded side elbow caps for additional protection.

- Large shoulder floaters with extended protection area
- Flex pad at bottom of chest pad
- Full pro thickness chest pad construction
- Large sternum protector
- Dura-mesh arm construction
- Built-in neck guard
- Adjustable back padding
- Available in sizes SM, MED, LG, XL, XXLG

# EPIC

#### JUNIOR FITTING GUIDE

SM	4'	to	4'3"
MED	4'4"	to	4'7"
LG	4'8"	to	4'11"

# VAULT

### VP VAULT JUNIOR

The new junior Vault arm and chest protector features an anatomically designed body pad with angled protective blocks for added flexibility to keep the padding properly positioned for added protection. Wide profile shoulder floaters with flex points give greater net coverage, protection and increased range of motion in the shoulder areas. Large reinforced sternum plate and chest pad construction with full pro thickness protection. Wide arm floaters with solid design and construction that feature high density inserts for added stability and protection.

- Anatomically designed chest pad with bottom flex flap
- Large sternum plastic with plastic reinforcement
- Four point adjustable elbow pads
- Adjustable wrist straps
- Molded arm and shoulder caps
- Dura-mesh arm base construction
- Adjustable back pad
- Available in sizes SM, MED, LG, XLG

## Arm and Chest

### VP 700 VISION

The new VP 700 Vision arm and chest pad incorporates a unique split lower chest pad with added flex sections. Large sternum plate with plastic reinforcement for added protection. Wide shoulder floaters extend into the rib area for added protection, stability and increase net coverage. Shoulder floaters feature side flex design that allow the arms to be brought in tighter to the body and provide additional arm mobility.

- Adjustable wrist straps
- Molded shoulder caps and arm protection
- Adjustable back padding
- Large flex design shoulder floaters
- Large mid arm floater with side molded elbow protection
- Four point adjustable elbow pads
- Available in sizes SM, MED, LG

# VISION

### VP 500 EPIC

New for 2006 the Epic 500 arm and chest pad features a two piece multi-flex chest pad that extends wider into the side rib area for added protection. Shoulder areas feature high density padding that also extends into the clavicle region for extra protection. Full molded plastic caps in the arms and elbow areas, along with cushioned back padding.

- Pre-shaped fore-arm padding tapers to the wrist
- Large shoulder floaters
- Back spine padding
- Cushioned chest pad
- Quick dry internal mesh lining
- Available in sizes SM/MED and MED/LG

# EPIC

# Catch Gloves

## T 8000 EPIC

The Epic 8000 catch glove. Advanced design gives superior performance and control with a neoprene internal glove with adjustment strap that provides for custom hand adjustment and glove control for quick precise closure. Open glove face design and extra sized deep T-web pocket for puck control and retention. Gel-Tec stinger pad and select materials allow the glove to be heat-formed and custom fitted to the hand for the ultimate fit and rapid break-in. Wide notched heel design for improved stick handling and shooting. Glove also features internal wrist cinch strap for added control and a two piece back hand pad for added flexibility.

- Large extra deep pocket
- Neoprene internal hand with adjustment strap
- Gel-Tec stinger pad
- Molded front cuff for puck deflection
- Internal wrist cinch strap
- Molded front and back thumb for added protection
- Side cheater bar
- Select material for Heat forming
- Open face for added net coverage
- Internal thumb and small finger loop for added control
- Back hand padding

## T 7000 VELOCITY 2

The T 7000 Velocity 2 catch glove is designed with a deep contoured large catch surface and large perimeter for added net coverage. Front thumb shape provides for an open shape and functions to direct pucks into the pocket. Pre-shaped closing break gives extra quick break-in and solid closing action, this and the extra wide deep pocket provide for increased puck control and retention. Perimeter balanced for lighter feel, along with dual internal adjustable back hand strap system that gives increased control during quick movements and hard shots. Gel-Tec internal stinger pads give added protection. Curved molded cuff and side cheater bar reduce puck skip over. Wider spacing at the heel of the glove for precise stick placement aid in greater stick control while handling

the puck. Fully heat moldable for custom fit and quicker break-in.

- Perimeter balanced design for improved feel
- Pre-formed shaped deep glove face
- Side cheater bar to help prevent puck skip over
- Two-piece back hand padding with high density knuckle pad
- Curved cuff increases wrist room and flexibility
- Finger tip deflecting ramp
- Wrist cinch strap
- Internal adjustable hand straps
- Heat moldable construction for custom fit
- Pre-shaped closing break

X-web option available

These and many more colors available

## Catch Gloves

### T 6000 LEGACY

The T 6000 Legacy catch glove features an extra large catching surface and large perimeter for added net coverage. Extra deep pocket with flat style waxed lace allows for greater puck retention. Balanced perimeter provides for lighter weight and glove control. The T 6000 features our Gel-Tec internal padding system that allows the glove to be heat molded for a custom fit and quicker break-in. Floating cuff design allows the catch surface to be kept more square to the shooter and allows for more wrist movement.

- Deep pocket with flat style waxed lace
- Cuff with no binding design provides more solid blocking area
- Balanced design for superior control and feel
- Floating cuff design
- Internal wrist control strap
- Flared cuff
- Extra large catching surface
- Three piece back hand protection
- Heat moldable for custom fit
- Gel-Tec padding system

These and many more colors available

## Catch Gloves

### T VAULT

New for 2006 the Vault catch glove is extra lightweight for quick rapid response and movement. Extra wide open palm design with contoured thumb design that angles to the pocket for puck retention. Internal hand strapping system and wrist strap secures the glove to the hand for added control. Large T-web pocket optimized for complete puck coverage while catching or covering the puck on the ice. Mechanical break-in design provides for secure glove closure and rapid break-in.

- Internal hand strap
- Vented interior finger stalls
- Molded cuff for puck deflection
- Three piece back hand protection for added glove flex
- Large cuff opening allows for added wrist movement
- Wide open catch surface

These standard colors available

### T 3700 VISION

The new 3700 Vision catch glove is a lightweight, wide open pocket design with a defined palm break for accelerated break-in. Large deep double bar T-web pocket with precision closure for puck retention and optimized for complete puck coverage on the ice. Full articulating back hand protection with high density protection on the back of the fingers for added slash protection. Molded reinforced thumb has notched heel area for stick placement that provides for easier stick handling and shooting.

- Adjustable wrist strap
- Reinforced palm with quick break-in design
- Deep double bar T-web
- Large catch surface
- Wide pocket open face for added net coverage and puck retention
- External back hand protection

These standard colors available

## Catch Gloves

### T 7070 VELOCITY 2

The T 7070 Velocity 2 intermediate catch glove is scaled down from our adult version by 6 percent. Large contoured pre-shaped catching surface with large perimeter for added net coverage. Front thumb shape functions to deflect shots into the pocket area. Pre-shaped closing break gives extra quick break-in and solid closing action for increased puck control and retention. Reduced weight on the perimeter of the gloves provides for better balance on the hand and a lighter feel. Dual internal adjustable back hand strap system gives increased hand security during quick movements and hard shots for added control. The Gel-Tec internal stinger pad provides for increased protection. Wide spacing at the heel of the glove for precise stick placement and control. Fully heat moldable for custom fit and quicker break-in.

- Open face design for added net coverage
- Deep T-web pocket
- Two piece back hand padding with finger tip deflecting ramp
- Curved deflecting cuff
- Wrist cinch strap
- Pre-shaped closing break
- Perimeter balanced for improved feel and quickness
- Heat moldable for custom fit

### T 800 EPIC SUPER JUNIOR

The new T 800 Epic catch glove features super junior enhanced sizing and performance to fit larger junior goaltenders. Advanced design with neoprene inner glove with adjustment strap that provides for custom hand fit and superior glove control for quick precise closure and rapid movement. Wide open face design features molded thumb with notched heel design for defined stick placement for improved stick handling and shooting.

- Neoprene inner hand for glove control
- Large deep T-web
- Flared cuff opening for added wrist mobility
- Internal wrist strap
- Select materials to allow glove to be custom heat formed
- Open face design for added net coverage.
- External back hand padding with high density inserts

These standard colors available

## Catch Gloves

### T VAULT JUNIOR

New for 2006, the Junior Vault catch glove is extra lightweight for quick rapid reaction. Extra wide open palm design with contoured thumb design shaped to angle the puck into the pocket. Internal hand strapping system and wrist strap to secure the glove to the hand for added control. Large T-web pocket optimized for complete puck coverage while catching or covering the puck on the ice. Three piece external back hand protection with high density insert over the fingers add to glove flex and increase protection. Mechanical break-in designed provides for secure glove closure and rapid break-in.

- Internal hand strap
- Vented internal fingers
- Molded cuff for puck deflection
- Large cuff opening for added wrist movement

These standard colors available

### T 700 VISION

New for 2006, the T 700 Vision catch glove is a lightweight open face design with a defined palm break for accelerated break-in. Large deep double bar T-web pocket with precise closure for puck retention and optimized for complete puck coverage on the ice. Full sectioned back hand protection articulates for added glove flexibility and features high density protection over the back of the finger for added slash protection. Molded thumb with notched heel area for precise stick placement that provides for easier stick handling and shooting.

- Adjustable wrist strap
- Reinforced palm with quick break-in design
- Deep T-web
- Large catch surface for added net coverage
- Flared front cuff for puck deflecting

These standard colors available

### T 500 EPIC

New for 2006, the T 500 Epic catch glove designed with a special emphasis on proper shape and easy closing to allow the young goaltender to better control the puck while catching. Internal wrist strap to secure the glove to hand for additional glove control, and external back hand padding for slash protection.

- Large wide T-web for secure closure
- Molded thumb and palm protection
- Internal wrist strap
- Available in Black/Silver/White color only

# Blockers

## B 8000 EPIC

The B 8000 Epic blocker provides the maximum amount of blocking surface with no binding perimeter construction for a solid edge for added solid blocking area. Large top flare provides for reduced puck skip over and adds additional space to allow for added wrist movement. Beveled edges on the back side of the blocking board reduce perimeter weight and provide for improved balance and control. Bottom board edge is tapered to allow for less restriction and wear while making paddle down moves to the ice. Internal board of ultra high density foams with a polycarbonate Lexan shield for increased protection. Large side deflecting shield with high-density foam construction adds blocking surface and incorporates an air cushion for increased protection. Articulating cuff and finger

protectors provide for increased comfort and range of motion.

- Internal adjustable wrist stabilizer strap
- Lightweight for quicker movements
- Full finger protectors with side finger guards
- Reduced perimeter weight for balance and control
- Side deflector shield
- Double layered palm
- Tapered bottom edge
- Large top flare
- Articulating cuff for increased wrist motion
- Gel-Tec padding over back of hand for shock absorption
- Polycarbonate board reinforcement

## B 7000 VELOCITY 2

The B 7000 Velocity 2 blocker features a larger blocking surface, with improved weight distribution for better balance and feel. Gradual curve from mid board to top provides for puck deflection. Board bottom edge is beveled to allow easy transition to the ice while making paddle down moves. The top board taper and curve along with the articulating cuff provide for additional wrist movement for increased range of motion. Large side hand protection with side deflector bar adds to the overall amount of blocking area for greater net coverage. Two piece molded finger protectors for added finger movement for excellent stick grip and control. High density internal board with Lexan shield reinforcement for

solid blocking surface with added durability to maintain the overall shape.

- Palm with Diamond grip material for fast drying and improved grip
- Articulating cuff design
- New larger blocking surface
- Air cushioned padding on back of hand for shock dispersal
- Tapered bottom board
- Light weight balanced design
- Adjustable wrist control strap
- Large molded dual finger protectors
- Reinforced thumb protection

These and many more colors available

## Blockers

### B 6000 LEGACY

The B 6000 Legacy blocker glove is our lightest pro blocker we have ever offered. The blocking board with no binding perimeter gives a more solid blocking area and additional net coverage. Large side hand plate adds to blocking area with high-density construction with air cushion padding for extra protection. Temper foam insert on back of the hand along with our internal board air dispersal system reduces impact and rebounds. Thin profile provides for lightweight and superior balance for control and quicker movement. Articulating flex cuff gives added flexibility and increased range of motion in the wrist area. Vented palm construction with foam cushioning in palm limits stick vibration and provides good stick grip and control.

- No binding perimeter board for more solid blocking area
- Large side blocking plate with air cushion
- Full wraparound finger protection
- Lightweight balanced design
- Adjustable wrist strap for secure fit and control
- Temper foam back hand protection
- Lexan board reinforcement
- Air dispersal board technology
- Side index finger guard
- Tapered bottom
- Vented palm construction

These and many more colors available

# Blockers

## B VAULT

New for 2006, the Vault blocker glove has an extra light weight design. Shaped to maximize blocking surface and angle for added net coverage. Pre-curved board shape with tapered bottom edge for easy transition and movement while down to the ice. Light weight balanced design for added control with adjustable wrist strap for a secure controlled fit. Wide side deflecting shield adds blocking area and provides additional protection to the side cuff and thumb. Articulating cuff provides for enhanced wrist movement for increased range of motion.

- Tapered bottom board
- Side deflecting shield
- Full molded thumb and finger protection
- Double layered palm construction
- Index finger side guard
- Ultra lightweight
- Back hand rebound cushion pad

These standard colors available

## B 3700 VISION

New design for 2006, the B 3700 blocker glove features beveled edges on the blocking board sides to reduce edge perimeter weight to provide excellent balance and control. Tapered bottom edge optimized for interaction with the ice in the paddle down position. Full flex articulating cuff gives added wrist movement. Flared top board shape provides additional puck deflection and limits puck skip over on the top edge.

- Molded foam internal board with ultra high density foam construction
- Double layered palm with hydrophobic water resistant layering
- Adjustable wrist strap for glove adjustment and control
- Full flex cuff
- Molded finger protection
- Beveled perimeter balanced blocking board

These standard colors available

## B 7070 VELOCITY 2

The B 7070 intermediate size Velocity 2 blocker is a scaled-down, 7 percent reduction of our Pro model. The B 7070 glove features a tapered bottom edge that is optimized for quick reaction while in the paddle down position on the ice. Articulating cuff provides for increased wrist mobility. Large side hand guard with deflecting wedge provides increased protection and added net coverage.

- Full articulating flex cuff design
- Adjustable wrist strap for added glove control
- Large finger protectors with side finger guards
- Side hand guard for added protection
- Palm features Diamond grip material for stick control
- Air cushioned padding on back of hand
- Light weight balanced design

## Blockers

### B 800 EPIC SUPER JUNIOR

The new B 800 Epic blocker features super junior enhanced sizing and performance to fit a large size range of goaltenders. Advanced design features beveled edges to the blocking board to reduce perimeter weight for improved balance feel and glove control. Wide side deflecting shield adds net coverage and protection to the side cuff and thumb areas. Articulated multi-flex finger protectors designed for increased finger movement and protection. Flared top board for puck deflection and tapered bottom board for good transition and control while making paddle down moves to the ice.

- Beveled board edges for more balanced light weight feel
- Articulated full flex cuff
- Tapered bottom board
- High density side deflecting shield
- Super junior sizing

These  
standard  
colors  
available

### B VAULT JUNIOR

New for 2006, the Vault junior blocker glove is an extra light weight design. Shaped to maximize blocking surface and angle for added net coverage. Pre curved board with tapered bottom edge for easy transition and movement while down in the paddle down position on the ice. Wide side blocking shield adds blocking area and provides additional protection to the side cuff and thumb areas. Articulating cuff provides for additional wrist range of motion.

- Tapered bottom board
- Adjustable wrist strap
- Side deflecting shield
- Double layered palm
- Index finger side guard
- Back hand rebound cushion pad

These  
standard  
colors  
available

### B 700 VISION

New design for 2006, the B 700 Vision blocker features beveled edges on the blocking board side to reduce edge perimeter weight to provide excellent balance and control. Tapered bottom edge optimized for interaction with the ice in the paddle down position. Full flex articulating cuff gives added wrist movement. Flared top board shape provides additional puck deflection and limits puck skip over on the top edge.

- Molded foam internal board with ultra high density foam construction
- Double layered palm with hydrophobic water resistant materials
- Adjustable wrist control strap
- Molded finger protectors
- Beveled perimeter balanced blocking board

These  
standard  
colors  
available

### B 500 EPIC

The new B 500 Epic blocker is designed with the younger goaltender in mind. Lower hand positioning allows for easy stick pick-up and movement down to the ice. Full thickness blocking board for added protection along with molded plastic reinforced finger protection. Tapered bottom board and top deflecting flare.

- Palm with hydrophobic water repellent material
- Molded thumb and finger protection
- Large top deflecting flare
- Available in Black/Silver/White color only

# Goal Pants

## P 8000 EPIC

The Epic goal pant has been designed and engineered to provide the greatest amount of blocking surface area with large flat thigh boards, five hole-rolls and a wide frontal profile for the ultimate in net coverage. Contoured front waist and belly pad for easy movements in the crouched position. Large molded hip plastic and extended tailbone padding for extra protection. Rear leg split prevents the pant from being displaced while going down to the ice.

- Large thigh guards with Lexan reinforcement plate
- Large inner thigh five-hole rolls
- Adjustable belt
- Lace up front
- Side groin protection panels
- Front abdominal padding
- Maximum width design for added net coverage
- Lightweight with sport mesh interior for quick drying
- Available in sizes SM (36-38), MED (40-42), LG (44-46), XLG (48-50), XXLG (52-54)

Note: add 8-10 inches to your actual waist size then match to sizing in parenthesis.

## P 7000 VELOCITY 2

The P 7000 Velocity 2 goal pant is designed to achieve the maximum amount of net coverage with minimal bulk and lightweight. The Velocity goal pant features our unique thigh-cradle technology that provides stability to the thigh guards and limits thigh pad twisting for greater puck stopping and deflecting. Large five-hole rolls with internal support padding give quick rapid closure to minimize openings in the five-hole. Full stretch crotch area and inner thigh area provide for increased flex and ventilation. Rear leg split prevents the thigh area from being displaced while going down to the ice, to keep thigh guards blocking as much area as possible. Low rebound foams provide for quick break-in and comfort and absorb impact to limit rebounds. Wide profile design and contoured waistband improves pant and chest pad interaction and increases flexibility.

- Thigh cradle technology for enhanced performance
- Lace-up fly area for added adjustment
- Adjustable belt for customized fit
- Rear leg split to optimize performance
- Inner leg stretch material
- Large five hole blocks
- Front abdominal protection
- Available in sizes SM (36-38), MED (40-42), LG (44-46), XLG (48-50), XXLG (52-54)

Note: add 8-10 inches to your actual waist size then match to sizing in parenthesis.

## Goal Pants

### P 6000 LEGACY

Super Pro goal pant with traditional design, extra protection in critical areas, wide profile thigh guards and added side blocks for large blocking surface. Constructed with durable 420-denier water-resistant nylon for extended durability.

- Adjustable padded belt
- Large inner five hole rolls
- Large wide thigh guards
- Extended coverage side blocks
- Large abdominal pad
- Removable padding for easy cleaning
- Available in sizes XS (32-34), SM (36-38), MED (40-42), LG (44-46), XLG (48-50), XXLG (52-54)

Note: add 8-10 inches to your actual waist size then match to sizing in parenthesis.

LEGACY

### P VAULT

New for 2006, the Vault goal pant is designed and tailored specifically to work with the movements of a goaltender to give optimum performance and comfort. Wide thigh guards are designed to give maximum blocking area and fill in the five-hole area when going down to the ice. Sport mesh lining for low water absorption and quick drying. Side abdominal and groin protection pads in high density foam are angled to flex with pant while in a crouched position. Large external high density pad covers the frontal areas of the abdomen and gives extra protection over the goal cup. Front contoured waist with wide loose fit allow chest pad to be fully tucked into the pants.

- External abdominal pad
- Adjustable belt with front double pull adjustment
- Large inner thigh five-hole rolls with internal support padding
- Low profile thigh guards
- Full stretch material in crotch and inner leg for flexibility
- Extended tail bone protection.
- Available in sizes XS (32-34), SM (36-38), MED (40-42), LG (44-46), XLG (48-50), XXLG (52-54)

Note: add 8-10 inches to your actual waist size then match to sizing in parenthesis.

VAULT

# Goal Pants

## P 3700 VISION

The P 3700 Vision goal pant is specifically designed and tailored for optimum fit. Wide profile cut for added room and comfort in the waist and leg areas for full freedom of movement. Wide thigh guards with internal five-hole rolls and side slash guards with cushion padding for added protection. Sport mesh internal lining for quick drying. Laced pant front and internal belt with dual pull straps for full waist adjustment. Side groin protection with internal flex blocks for flexibility and extra protection.

- Molded hips and kidney protection
- Large padded tail bone protector
- Sport mesh lining
- Lightweight design
- Wide profile loose fit design
- Internal adjustable belt with dual pull straps
- Inside thigh protection
- Frontal abdominal protection
- Available in sizes SM (32-34), MED (40-42), LG (44-46), XL (52-54)

Note: add 8-10 inches to your actual waist size then match to sizing in parenthesis.

These standard colors available

## P 800 EPIC SUPER JUNIOR

The new P 800 Epic super junior goal pant features our new enhanced sizing and performance to fit a larger size range of goaltenders. Advanced design to provide the greatest amount of blocking surface with large thigh boards, Five-hole rolls, and a wide front profile for increased net coverage. Contoured front waist and belly pad for easy movement in the crouched position. Full molded reinforced hip protection and extended tail bone protection. Rear leg split prevents the pant from being displaced while going down to the ice.

- Large thigh guards
- Full crotch and inner leg stretch panels
- Side groin and abdominal protection panels
- Maximum width cut for comfort and net coverage
- Lightweight sport mesh lining for quick drying
- Available in sizes SM (20-22), MED (24-26), LG(26-28), XLG(28-30) and XXL(32-34)

## P 700 VISION

The P 700 is designed and tailored for optimum fit. Wide profile cut for added room and comfort in the waist and leg areas for full freedom of movement. Wide thigh guards with internal five-hole rolls and side slash guards with cushion padding for added protection. Sport mesh internal lining for lightweight and quick drying. Laced front and internal belt with dual pull straps for adjustment.

- Molded hip and kidney protection
- Specific goalie cut for correct fit
- Sport mesh internal lining
- Lightweight easy flex design
- Large thigh guards
- Inner thigh padding and five-hole rolls
- Available in sizes SM (20-22), MED (24-26), LG (26-28), XL (28-30)

These standard colors available

## Accessories

### VPC 6000

The 6000 clavicle protector has high-density plastic and foam layered padding, and an adjustable neck strap with durable soft textured sport mesh vented lining and nylon exterior.

### VPC 6060

Available in a Junior size model

### VPC 8000

Shirt style clavicle and neck protection holds unit more securely in place for added protection and comfort. Mesh outer shirt construction to reduce heat build up, cut resistant BNQ certified design. Available in sizes MED, LG. Black only

### VPC 7000

The 7000 clavicle protector has a full ballistic nylon exterior, Velcro adjustable closure, and soft internal padding with high density foams for shock dispersal. BNQ certified.

- Available in Adult sizes: MED, LG
- BNQ certified
- Available in Black, Blue, Red

### VPC 7000 JR

- BNQ certified
- Available in Black only
- Available in one size only

## Accessories

### VJ 7000

The VJ 7000 goal jersey features a large body fit and wide arm area for added room to properly fit over the arm and chest protector. It is constructed of durable Micromesh material. Available in colors Black/White, Blue/Black/White and Red/Black/White in sizes LG, XLG, XXLG.

### VJ 7070

Intermediate/Junior sized version of the adult model. Constructed with Micromesh material for durability and ventilation. Wide body and arm fit for added room to properly fit over arm and chest protector. Available in colors Black/White, Blue/Black/White sizes LG, XLG.

### VKP 8000

The VKP 8000 knee and thigh protector features contoured shape with high density foam and plastic thigh protection along with a molded front and side knee caps for protection. Dual adjustable straps, and anti-slip lining secure to leg.

- Molded front and side knee caps
- Tab allows the unit to be attached to pants
- Anti-slip lining material on interior
- Nylon exterior available in black, blue, red, white
- Also available in a junior model **VKP 800**

### VKP 7000

Thigh guard features five-hole blocking design with ultra high density foam protection that also provides light weight. Adjustable strap with buckle, lace on attachment, fits any Vaughn adult size leg pad. Available in black, blue, red, and white. Also available in a smaller intermediate size **VKP 7070**.

## REPLACEMENT PARTS

We offer a full line of replacement parts for all Vaughn products, including leg straps, toe straps and buckles, tie on toe assemblies, knee spacers, blocker palms, mask hardware and replacement cages, plastic hardware for arm and chest protectors, replacement blocker board inserts.

## Goal Bags

### BG 7000

The super large size goal bag with wheels, fits a complete set of adult sized goal equipment. Rugged construction has webbing reinforced construction and riveted handles. Three-wheel design for easy rolling and to prevent bag from sagging, reinforced bottom with vertical and horizontal stiffeners with double layered bottom with rubberized reinforcement. It has molded reinforced pull handle along with handles on each end and traditional shoulder straps, and dual internal end pockets, along with large vented wet pocket and storage pockets inside and on topside of bag. Dimensions: 43" long by 20" x 20", Black only.

### BG 7070

Our large size goal bag with wheels fits a full set of equipment with 31" or smaller pads. Rugged construction with webbing reinforced construction and riveted handles. Three-wheel design for easy rolling and to prevent bag from sagging, reinforced bottom with vertical and horizontal stiffeners and double layered bottom with rubberized reinforcement. Molded reinforced pull handle along with handles on each end and traditional shoulder straps. Dual internal pockets have storage pocket on topside of bag. Dimensions: 35" long by 18" x 20", Black only.

## Goal Bags

### BG VAULT SENIOR

The Vault adult super size goal bag will hold a complete set of adult size equipment. Constructed of heavy gage materials with external corner reinforcements, internal handle reinforcements, and padded bottom for wear resistance. Adjustable handle length with non slip pad for easy carrying.

- High strength zipper
- Internal mesh removable wash bag
- Padded strap with non-slip handle
- Extra large size
- Padded double layered bottom
- Reinforced corners
- Dimensions: 40" x 20" x 21"

### BG VAULT JUNIOR

The Vault junior size goal bag has the same construction as our adult model and will hold a full set of junior sized equipment.

- High strength zipper
- Internal mesh removable wash bag
- Padded non-slip handle
- Adjustable length carry straps
- Extra large junior size
- Padded double layered bottom
- Reinforced corners
- Dimensions: 37" x 20" x 18"

## Underwear

### VHU 8000

Performance underwear designed specifically for the needs of a goaltender. Specific goaltender cut for full freedom of movement, with high performance micro mesh moisture wicking fabric construction. Special placement of vent mesh reduces heat buildup and increases moisture evaporation for less body heat build up.

- Fast drying materials
- Navy blue color with white print
- Mesh inserts to keep goaltender cooler
- Durable materials for long wear
- Lightweight
- Special specific goaltender cut
- Adult sizes: SM, MED, LG, XLG

### VHU 6000

- Full length one-piece
- Front zipper closure
- Breathable moisture wicking fabric
- 50/50 cotton/poly blend fabric
- Athletic Gray color with Navy Blue trim
- Adult sizes: SM, MED, LG, XLG

### VHU 6060

- One-piece youth size
- Front zipper closure
- Breathable moisture wicking fabric
- 50/50 cotton/poly blend fabric
- Athletic Gray color with Navy Blue trim
- Junior sizes: MED, LG, XLG

# Goal Cups

**VGC 8000 EPIC**

The Epic 8000 goal cup features advanced double cup design for the ultimate in protection. Two unique cups the internal cup is the advanced design from Shock Doctor Sports Technology that provides multi stage impact protection. The outer cup is a combination of half inch foam and plastic to dissipate and absorb initial impact for true double layered protection. Contoured waist sectioned area for added flexibility and comfort. Adjustable waist and leg support straps. Durable sport mesh and nylon construction. Available in three colors: standard Black, Black/Red and Black/Navy. Fits waist sizes 32" to 44". Also available in an intermediate size: **VGC 8000 Intermediate** that fits waist sizes 25" to 32".

**VGC 7000 VELOCITY 2**

The Velocity goal cup features a contoured top waist with high-density padding. Layered foam padding throughout for additional comfort and protection. Large side cushion bumpers and banana-style cup features foam edge bumpers for greater protection. Available in three colors Black/Silver, Red/Silver, and Navy/Silver. Fits waist sizes 32" to 44". Also available in a intermediate size: **VGC 7070** that fits waist sizes 25" to 32".

**VGC VAULT**

The traditional-style goal cup features a contoured top waist with high-density padding, layered foam padding throughout for additional comfort and protection. It features a large banana-style cup with foam edging.

- Adjustable waist with Velcro closure
- Contoured top waist area for superior fit
- Sport mesh lining
- Durable nylon exterior
- Fits waist sizes: 32" to 44"

**VGC VAULT JUNIOR**

Traditional-style junior goal cup features a contoured top waist with high-density padding. The layered foam padding provides additional comfort, along with a banana-style cup with foam edging for added protection.

- Adjustable waist band
- Molded banana cup
- Nylon exterior
- Sport mesh lining
- Fits waist sizes: 20" to 31"

**WPP 900**

The women's pelvic protector features a high-density reinforced lower abdominal area contoured for comfort and fit, a full adjustable waist strap with Velcro closure, and molded plastic protection with foam padding.

- Durable nylon exterior
- Internal molded foam and plastic
- Fits waist sizes: 26" to 36"

## Goal Masks

### VM 8000

The Epic 8000 goal mask. Constructed with multiple layers of fiberglass and aramid fiber for strength and stiffness under high impact loads. Contoured design reduces flat spots to better deflect impacts. Five point harnesses keeps mask secure and allows for full adjustment. Wide jaw profile allows for additional chins cup adjustment for optimal fit and security. The Cat eye style certified cage has optimal visibility at all angles and is constructed of stainless steel for maximum strength and durability. Dual density internal liner of Vinyl Nitrile foams allows for lightweight comfort and protection. Internal adjustable chin strap provides for a secure fit and easy adjustment. Available in Standard colors or full custom paint.

- Standard colors of Black, White, Royal Blue, Navy Blue and Red
- Custom colors and art work also available
- Cloth carry bag included
- Removable terry cloth sweat band and self adhesive fit pads included
- Available in adult sizes SM, Standard, and XLG

### VM 5500

The VM 5500 features full composite construction with layers of bi-directional fiberglass and aramid fiber composite reinforcement inserts in the forehead and chin area for additional strength to dissipate impacts and provide maximum protection and shell strength. Wider chin profile allows for improved chin cup adjustment. The mask shape is designed to provide optimum fit to give maximum visibility from all viewing angles. Air holes and face opening are designed to provide ventilation to dissipate heat build-up. Internal chin strap provides extra security and easy adjustment. Cage bars are strategically positioned to obtain maximum visibility while in a crouched playing position. The cage is constructed of polished stainless steel for added durability and the low luster finish provides optimal visibility characteristics. Internal padding of a dual density Vinyl Nitrile foam allows for lightweight, comfort and protection. Two-part urethane paint system allows for added durability against chipping.

- Available in standard colors of Black, White, Royal Blue, Navy Blue, Red
- Custom colors and art work also available
- Comes with cloth carry bag
- Removable terry cloth sweat band
- Available in adult sizes SM, Standard, and XLG

#### Standard colors available for all masks

## Goal Masks

### VM 5500PC

The 5500 PC mask is of the same construction and design as our VM 5500 model. The mask features a pro style cage constructed with stainless steel bars with larger eyehole openings the center bars feature additional hand welds for added strength. Two-part urethane paint adds durability against chipping.

- Available in standard colors of Black, White, Royal Blue, Red, Navy Blue
- Custom colors and art work also available
- Comes with cloth carry bag
- Removable terry cloth sweat band
- Sizes adult Standard and XLG

### VM 7070

Intermediate size model features the same construction as our adult models with bi-directional layers of fiberglass and aramid fiber composite reinforced shell. Wider jaw profile and internal chin strap allows for added security. Full stainless steel cage construction resists chipping or rust for greater durability and to provide maximum visibility.

- Available in standard colors of Black, White, Navy, Royal Blue, Red
- Cloth carry bag
- Removable terry cloth sweat band
- Custom colors and art work available
- Available in standard intermediate/junior size only

### VTG 7000

The clear Lexan throat shield allows downward visibility. It attaches to the mask with included clips and laces. Fits all adult and junior model masks.

### MB 7000

Padded protective carry bag with internal spare parts pocket. Large heavy duty zipper and molded carry handle.

## Goal Sticks

### VAUGHN GOLD SERIES

The Gold Series custom goal sticks from Vaughn are crafted to professional specification for light weight with enhanced feel and balance. Constructed with a veneer laminated handle for solid feel and added stiffness to provide excellent shooting performance. Full exterior reinforced with fiberglass for added durability. Large heel-blade curve

with rounded heel section for easy shooting and stick handling. Contoured grip gives added control and balance for quick movement. Custom patterns and colors are available. Standard stick features a 27" paddle height.

Heel Curve

### VAUGHN SILVER SERIES

The Vaughn Silver Series goal stick is constructed with a laminated handle with a medium flex with select wood constructed paddle with profile shape for lightweight. Tall paddle height features full fiberglass reinforcement with composite reinforced wear edges on each edge of paddle for added durability. Large mid blade curve with rounded

heel for easy shooting and stick handling. Contoured shape at handle and paddle junction provides an anatomically correct grip for full stick control and allows for easy poke-checking and keeps the paddle of the stick from impacting the index finger when using paddle down move to the ice. Standard stick features a 26" paddle height.

Mid Curve

### VAUGHN GOLD SERIES INTERMEDIATE

The Gold Series intermediate size goal stick are crafted to the same pro specifications standards as our adult model. The intermediate size features a 25" paddle height and

heel-blade curve to provide the proper fit and balance that the intermediate sized goaltenders requires for optimal performance.
