GOAL PADS

VPG 7500 VELOCITY 3

The Velocity 3 leg pad features advanced design and innovations that have made the Velocity series of product the industry leader. The Velocity 3 pad features a taller plus size squared top thigh rise to provide advance five-hole coverage. Ultra high density foam in the outside rolls provides additional puck deflection and pad stability while the segmented design provides excellent pad flex. Wide profile inner shin five-hole roll features a wide flat design that along with the new lower profile balance stabilizer provides stability on the inner edge of the pad. This provides increased balance and a tight pad seal while down on the ice, the square tall profile of the thigh rise completes the five-hole coverage. The inner toe design at the skate area allows for more powerful foot control and stability while moving laterally while down to the ice. This gives added coverage low to the ice and allows the skate blade to contact the ice faster for more powerful movement across the ice. New wider knee cradle design provides precise pad control and properly positions the knee within the pad to aid in faster leg and pad rotation and provides additional room for wearing large style

knee guards. Wider leg channel design speeds pad rotation while keeping the pad fully under control without unwanted pad movement to drive the pad into position without hesitation caused from pad slop. The Velocity 3 is designed with an 11 inch width to comply with all new league rules.

- Full pro spec construction so each pad is identical to what the pro's wear
- Plus one sizing with tall thigh length
- New wider knee cradle with Velcro adjustment strap
- Wide leg channel with internal leg cushion gives faster pad rotation
- Flex-Pac internal padding allows for quick break-in
- New low profile balance stabilizer design for quicker movement
- High density outside roll for firmer pad edge
- New style thigh boards add protection and five-hole coverage
- Available in sizes 32"+1", 33"+1", 34"+1", 35"+1", 36"+1", 37"+1", 38" and custom sizes

ICEBERG

PULSE

GOAL PADS

VPG 8800 EPIC

New design for 2009, the Epic 8800 leg pad features full Pro specification construction. A new narrower side profile construction provides lighter weight and less bulk for quicker leg movements. The pad front surface features our revolutionary rebound control technology foam that effectively deadens shots to provide lower rebounds and greater puck control. The Epic 8800 size and dimensions comply with all new league rule specifications. The Epic goal pad design allows the pad to quickly react to leg movements, which provide greater pad control giving the goaltenders the ultimate in control and quickness. Full-length leg cradle with a wider center construction, supports the leg off the ice and provides balance on the inner edge of the pad. This keeps the leg supported above the ice to allow maximum leg extension while reducing stress on the knees and hips and allows for quicker leg rotation along

the ice. New design on the inside edge of the pad gives a flat inner edge and knee platform for improved body balance. The narrower side panel reduces pad drag to allow for quicker pad slide, along the inner edge and properly positions the pads on the ice. Knee hugger curved shape in the top section of the pad, keeps the pad from drifting away from the knee, and closes the top thigh portion of the pads when down on the ice reducing five hole gaps. New wedge shaped outside rolls provide a wider front blocking surface and rigid outer pad edge, which will increase net coverage and stabilizes the pad height to limit compression.

- Balanced construction for lighter feel and quick response
- Plus one inch sizing with tall thigh rise for added coverage
- Low drag inner edge design for faster on ice movement
- New lighter weight for quicker movement
- Ultra high density outside roll foam to prevent puck skip over
- Flex-Pac internal padding
- New wedge style vertical outside rolls
- Wide square shape provides increased net coverage
- Available in sizes 32"+1", 33"+1", 34"+1", 35"+1", 36"+1", 37"+1", 38" and custom sizing
- Rebound control design provides for increased puck control

Velocity

VPG 7400 VELOCITY

The Velocity 7400 leg pad features extreme light-weight design and proportional balanced construction to give added pad control along with faster leg movement. The Velocity 7400 pad features a taller plus size thigh rise to provide advance five-hole coverage while down on the ice. Ultra high density foam in outside rolls provide additional puck deflection and pad stability while the segmented design provides excellent pad flex to give quicker break-in. Wide profile inner shin five-hole rolls feature high-density foams to give a flat firm inner pad edge for greater pad stability. This prevents hard shots from pushing through the five-hole area or under the pad, while down on the ice. The side balance stabilizer ensures proper pad placement while on the ice giving pad stability and a tight pad seal to the ice. This positions the pad square to the ice for greater net coverage. Deeper knee cradle design gives added pad control and secures the knee properly in the pad. Adjustable knee lifters keep the knee elevated from the ice surface which reduces knee stress while going down, and provides for greater leg extension. Wide leg channel design aids in pad rotation while keeping the pad fully under control without pad slop. This helps drive the pad into position without hesitation caused from pad slop. The Velocity 7400 is designed and constructed to comply with all new league rules. Overlay tribal style stitched graphics with color schemes designed to hide the inner edge making it difficult for shooters to identify the five-hole area of the pad.

- Plus one sizing with tall thigh length
- Tribal style stitch graphics
- Wide leg channel with internal leg cushion gives faster pad rotation
- Flex-Pac internal padding allows for quick break-in
- Full knee cradle with double elastic strap with Velcro adjustment
- High density outside roll for firmer pad edge
- Curved thigh board for added protection
- Balance stabilizer with wider inner five-hole for added pad stability
- Available in sizes 32"+1", 34"+1", 36"+1", 37"+1"

GOAL PADS

VPG 8600 EPIC

The Epic 8600 leg pad features a narrow side profile design constructed to be lighter weight and less bulk for quicker leg movements. The pad front surface features softer front foam to reduce rebounds and give greater puck control. The Epic 8600 sizes and dimensions comply with all new league rule specifications. Full length leg and knee cradles feature adjustable knee and leg lifters that allow precise adjustment of leg height off the ice when going down on the inside pad edges. This keeps the knee and leg supported above the ice and provides superior ergonomic leg position to allow for maximum leg extension while reducing stress on the knee and hip and allows for quicker leg rotation and extension along the ice. The design on the inside edge of the pad gives a flat inner edge and side knee platform for improved body balance. The narrower side panel reduces pad drag to allow for quicker pad slide along the inner edge and properly positions the pads on the ice to give maximum leg support and to keep the pad face square to the ice for greater net coverage. Knee hugger curved shape in the top section of the pad keeps the pad from drifting away from the knee and closes the top thigh portion of the pads when down on the ice reducing five-hole gaps. Large square shaped outside rolls prevent puck skip over and provide a defined outer pad edge that increases net coverage and stabilizes the pad height to limit height compression. Large curved thigh boards provide additional knee and thigh protection and function to help increase five-hole coverage.

- Balanced construction for lighter feel and quick response
- Plus one inch sizing with tall thigh rise for added coverage
- Low drag inner edge design for faster on ice movement
- Full length inside leg protection
- Knee and leg lifters for ultimate pad adjustment
- Ultra high density outside roll foam to prevent puck skip over
- Flex-Pac internal padding
- Narrow side profile for lighter weight
- Wide square shape provides increased net coverage
- Available in sizes 30"+1", 32"+1", 34"+1", 36"+1", 37"+1"

GOAL PADS

VPG 7300 VELOCITY 3 INTERMEDIATE

The 7300 Velocity is the intermediate size of our Velocity 3 pro leg pad. Designed and constructed as a scaled down version of our pro model. It provides all the high performance features to meet the needs of an extremely high caliber young adult goaltenders that require serious performance and protection. The inner edge of the pad is designed to provide a stable landing area to allow for proper pad positioning along the ice for greater net coverage. Large knee lifters elevate the knee away from the ice which limits stress on the knees and hips and aligns the edge of the pad to the ice surface while on the ice. High density outside roll construction limits puck skip over and stabilizes the shape and height of the pad. Segmented outside roll design provides easy flex for fast break-in. Profiled inner toe area at the skate allows for the skate to remain intact with the ice in a deep crouch. This gives more skate control and stability allowing for quicker lateral movements on the ice and faster recovery. Wide leg channel provides good pad control and allows for quick pad rotation to provide proper pad positioning with pad slop giving added control for precision pad placement.

- Plus one sizing with tall thigh length
- Intermediate width of 10.75 inches
- Tribal style stitch graphics
- Wide leg channel with internal leg cushion gives quicker pad rotation
- Flex-Pac internal padding allows for quick break-in
- Full knee cradle with double elastic strap with Velcro adjustment
- High density outside roll for firmer pad edge
- Curved thigh board for added protection
- Balance stabilizer with wider inner five-hole for added pad stability
- Available in sizes 29"+1", 30"+1", 31"+1"

GOAL PADS

VPG 8400 EPIC

The Epic 8400 junior size leg pad features a narrow side profile design constructed to be lighter weight with less weight mass for quicker leg movements. The pad front surface features softer front foam to reduce rebounds and give greater puck control. The knee cradles feature adjustable knee lifters that allow precise adjustment of knee height off the ice when going down on the inside pad edges. This keeps the knee supported above the ice and provides superior ergonomic leg position to allow for maximum leg extension while reducing stress on the knees and hips that allows for quicker leg rotation and extension along the ice. Inside pad edge design gives a flat inner edge and side knee platform for improved body balance. The narrower side panel profile reduces pad drag to allow for quicker pad slide along the inner edge, and properly positions the pads on the ice. Knee hugger curved shape in the top section of the pad keeps the pad from drifting away from the knee and closes the top thigh portion of the pads when down on the ice reducing five-hole gaps. Large outside rolls prevent puck skip over and provides a defined outer pad edge that increases net coverage and stabilizes the pad height to limit height compression.

- Balanced construction for lighter feel and quick response
- Plus one inch sizing with tall thigh rise for added coverage
- Low drag inner edge design for faster on ice movement
- Full length inside leg protection
- Knee lifters for ultimate pad adjustment
- Flex-Pac internal padding
- Narrow side profile for lighter weight
- Wide square shape provides increased net coverage
- Available in sizes 23"+1", 25"+1", 27"+1", 29"+1"

VPG 7100 VELOCITY

High performance youth leg pads, the Velocity 7100 features full flat face construction for added net coverage, and flat inner pad edge to allow for proper pad positioning while down to the ice surface. Full-length inner leg protection and padded knee cradle features a Velcro adjustable elastic strap for pad control. Proportionally designed for optimal fit of all sizes that places all the flex points in the correct location to enhance performance.

- Velocity style tribal graphics
- Padded adjustable knee cradle
- Inside edge knee, calf and ankle protection
- Available in White/black/silver color as shown only
- Available in sizes 20"+1", 22"+1", 24"+1", 26"+1"

ARM AND CHEST

WHITE/BLACK/
METALLIC GOLD

WHITE/NAVY/ORANGE

VP 7500 VELOCITY 3

The Velocity 3 pro arm and chest protector has been optimized for lighter weight, increased flexibility and added protection. The chest protector features an anatomical design with angled shaped protective blocks to align the flex points to match body movement for increased flexibility. The lower chest pad also features a lower belly flap that allows the unit to stay positioned when using a deep crouch. Shoulder to back pad adjustment systems allow the unit to be more balanced with an improved fit over the shoulders. This keeps the unit stabilized giving more solid blocking surface with a wide profile at the shoulders. Unique three piece upper chest pad is constructed of multiple layers of super high density foams to increase shock dispersal and give lower puck rebounds from shots hitting the chest area while providing increased protection over the sternum and upper rib cage. Large shoulder caps with lower extensions fill in gaps around the armpit area. Adjustable side chest pad wing extensions give full coverage to this vulnerable area.

Anatomically contoured designed arms provide an overall weight reduction and function to improved balance and feel. Strategically positioned molded protective caps give greater shock dispersal. The forearm padding also tapers to the wrist for optimal fit into the cuff of the gloves.

- Unique multi sectioned chest pad with lower flex pad
- Four point adjustable elbow pads
- Wide shoulder floaters with air suspension protection
- Side chest pad belly extensions
- Adjustable side chest pad arm pit extensions
- Lighter weight for quicker reaction and faster break-in
- Low rebound design
- Tapered forearm padding for improved glove interaction
- Anatomically designed for ease of movement
- Available in sizes XS, SM, MED, LG, XLG

ARM AND CHEST

VP 8800 EPIC

The VP 8800 Epic arm and chest protector is designed to work with the natural movements of the body adding flexibility while providing superior protection to maximize net coverage, and still meet new league rule requirements. New design features provide lighter weight and more even weight distribution for improved balance and feel. Arm base construction of Dura-mesh provides increased flexibility. The arms are anatomically designed, shaped and optimized to keep the padding properly aligned to increase ventilation for heat dissipation. Large surface shoulder floaters feature an extra wide profile for added protection and stability to provide additional net coverage and puck deflection. The multi piece chest pad allows the unit to flex with the body movements and features a new side rib cage extension padding for added protection. The unique chest pad weight suspension system supports the weight of the unit over the shoulders and functions to balance the weight of the unit over the body core for a lighter feel and features full adjustability

for a custom fit. Large plastic reinforced sternum plate gives added protection in the mid chest and upper belly region.

- Molded side elbow protection
- Four point adjustable elbow pads
- Large solid shoulder floaters
- Design meets all new league rule size requirements
- Articulating chest pad for added flex
- New larger side rib cage padding
- High density spine protector
- Cushioned chest pad backing
- Tapered forearm padding for tight wrist fit
- Side shoulder extensions for upper arm protection and net coverage
- Adjustable wrist straps with Velcro quick closure
- Available in two color options
- Available in sizes XS, SM, MED, LG, XLG

ADULT FITTING GUIDE

XS	5'	to	5'2"
SM	5'3"	to	5'5"
MED	5'6"	to	5'9"
LG	5'10"	to	6'
XLG	6'1"	to	6'5"

ARM AND CHEST

VP 7400 VELOCITY

The Velocity VP 7400 pro arm and chest protector features special designed anatomically angled protective blocks and lower belly flap all arranged to align the flex points of the chest pad to match body movements. This allows the unit to keep the protection properly positioned for increased comfort and added protection. Large shoulder floaters with high density foam construction add to the blocking surface and increase protection. Dura-mesh arm base and component construction provides lighter weight with added flexibility to provide quick break-in and added comfort while limiting heat retention. Large reinforced sternum plate gives dual layered protection over the critical chest area. Wide arm floaters with solid high density inserts provide added stability under impact for better puck deflection.

- Four point adjustable elbow pads
- Adjustable wrist and arm straps
- Reinforced back padding with adjustment straps
- Conforms to all new league rules
- Molded arm protection
- Anatomically designed chest pad
- Dual shoulder caps for added protection
- Available in sizes XS, SM, MED, LG, XLG

ADULT FITTING GUIDE

VP 8600 EPIC

The VP 8600 Epic arm and chest protector is designed to work with the natural movements of the body for flexibility while providing superior protection to maximize net coverage and still meet new league rule requirements. The design incorporates a unique split lower chest pad with side sections that move to allow for additional flexibility during body movement. The large sternum plate provides added protection in the chest and upper rib cage areas. The arms are anatomically designed, shaped and optimized to keep the padding properly aligned for added protection. Large surface shoulder floaters feature an extra wide profile for added protection and stability to provide additional net coverage and puck deflection. Adjustable wrist straps and tapered forearm padding allow for proper fit into gloves for increased performance.

- Molded arm and shoulder caps
- Four point adjustable molded elbow protection
- Large mid arm floaters with easy flex design
- Adjustable back padding
- Extra flex chest pad design
- Conforms to new league rule specifications
- Available in sizes SM, MED, LG, XLG

ARM AND CHEST

VP 7300 VELOCITY V3 INTERMEDIATE

The VP 7300 intermediate size arm and chest protector features special intermediate sizing enhanced to fit the young adult goaltender that needs maximum protection and performance but does not have the body size or weight to use the pro model. Scaled from our 7500 pro model and optimized for this age category the 7300 gives maximum net coverage and blocking surface, proportioned with wide shoulder floaters and shoulder caps and wide mid arm floaters. Full adult thickness in critical key areas such as the sternum for maximum protection along with full molded components in the elbows, arms and shoulders provide for increased shock dispersal while allowing for maximum flexibility.

- Large shoulder and arm floaters to maximize blocking surface
- Proportional padding reinforced in critical areas
- Flex pad at lower chest pad
- Full pro thickness over sternum
- Adjustable back padding
- Side chest pad extensions
- Available in sizes MED, LG, XLG, and XXLG

INTERMEDIATE/JUNIOR FITTING GUIDE

SM	4'	to	4'3"
MED	4'4"	to	4'7"
LG	4'8"	to	4'11"
XLG	4'11"	to	5'1"
XXLG	5'1"	to	5'3"

VP 7200 VELOCITY JUNIOR

The Velocity 7200 junior arm and chest protector features anatomically designed body pad with angled protective blocks and lower belly flap all arranged to align the flex points of the chest pad to match body movements. This allows the unit to keep the protection properly positioned for increased comfort and added protection. Larger shoulder floaters with high density foam construction add to the blocking surface and increase protection. Dura-mesh arm base and component construction provides lighter weight with added flexibility to provide quick break-in and added comfort while limiting heat retention. Large reinforced sternum plate gives dual layered protection over the critical chest area.

- Four point adjustable elbow pads
- Adjustable wrist and arm straps
- Reinforced back padding with adjustment straps
- Conforms to all new league rules
- Molded arm and shoulder caps
- Anatomically designed chest pad
- Available in sizes SM, MED, LG, and XLG

ARM AND CHEST

VP 8400 EPIC JUNIOR

The VP 8400 Epic junior arm and chest protector is designed to work with the natural movements of the body, to maximize net coverage and still meet new league rule requirements. The design incorporates a unique split lower chest pad with side sections that move to allow for increased flexibility during body movement. The large sternum plate provides added protection in the critical chest and upper rib cage areas. The arms are anatomically designed, shaped and optimized to keep the padding properly aligned for added protection and maximum flexibility. Large surface shoulder floaters feature an extra wide profile for added protection and stability to provide additional net coverage and puck deflection. Adjustable wrist straps and tapered forearm padding allow for proper fit into gloves for increased performance.

- Molded arm and shoulder caps
- Four point adjustable molded elbow protection
- Large mid arm floaters with easy flex design
- Adjustable back padding
- Extra flex chest pad design
- Available in junior sizes SM, MED, and LG

JUNIOR FITTING GUIDE

SM	4'	to	4'3"
MED	4'4"	to	4'7"
LG	4'8"	to	4'11"

VP 7100 VELOCITY YOUTH

The new 7100 Velocity youth arm and chest protector unit features large shoulder floaters to protect the vulnerable collar bone area and are sectioned with flex seams to provide added flexibility for young goaltenders. New design multi layered chest pad with comfort foam air cushioned backing to absorb high impact shots and new plastic reinforced sternum plate for added protection. Full molded plastic components in the arms, shoulders and elbows along with a full back protector to give extra protection. Wide cut easy flex arm design with integrated adjustable wrist strap for a secure fit. Nylon covering material for added durability and to limit water absorption to keep unit light weight.

- Pre-shaped design for comfort and fast break-in
- Wrap around design on side chest pad to increase coverage
- Back spine padding
- Cushioned chest pad back for extra shock absorption
- Quick dry internal mesh lining
- Available in youth sizes SM/MED and MED/LG

CATCH GLOVES

T 7500 VELOCITY 3

The T 7500 Velocity 3 catch glove features an innovative design with a large catching surface. The dimensionally deeper shape creates more volume in the palm and pocket for improved catching and puck retention. The top thumb area and cuff features a molded in deflecting ramp engineered to limit pucks from skipping over the top edge of the glove. The internal hand features mesh finger construction to aid in quicker drying and to reduce heat build up in the hand. Also featuring an adjustable knuckle strap for a custom fit and added control. The internal back hand retention system also features an adjustable strap across the back of the hand. It secures the glove to the hand for greater control and limits glove twist when impacted at edges with hard shots. Our unique new thumb tunnel feature integrates added control into the thumb to give greater closing power protection and added glove control. Wide flared cuff allows for added wrist room and facilitates better hand positioning to keep the glove more square to the shooter to increase net coverage. The back hand features three piece construction with HD foam over the back of the fingers for slash protection and has a finger tip deflecting ramp to further protect the finger tips from shots. The back pad can also be fully opened to facilitate quicker drying. Dual bar T-web limits puck spin for good puck retention in the pocket and

the glove design tightly seals along the ice when covering pucks.

- Unique thumb tunnel for added glove control and protection
- Large catching surface with greater volume
- Straight top thumb profile and cuff edge with deflecting ramp
- Full access opening back hand padding for protection that can be opened for easy drying
- Dual back hand control straps
- Heat moldable for custom fit
- Full pro spec construction that meets all new league size requirements
- Full flex seams in palm and internal padding for quick precise break-in
- No binding cuff design for added blocking area
- Flared molded front cuff for added puck deflecting and added wrist mobility
- Reinforced finger perimeter and added palm protection for added protection and durability

ICEBERG

CATCH GLOVES

T 8800 EPIC

The T 8800 catch glove features advanced anatomical design to give superior control and balance. The glove features an internal Neoprene glove with adjustment strapping that provides for custom hand adjustment and alignment that results in superior glove control and quick precise movement and closure. Thumb tunnel design provides additional closing power along with protection to the thumb. Extra wide glove face design provides added net coverage and large T-web pocket for improved puck control and retention. Solid web construction and reinforced perimeter provides added security while covering pucks on the ice. Internal Pro-specification padding increases protection and provides added perimeter stability. Select materials allow the glove to be heat-formed and custom fitted to the individual goaltender's hand for the ultimate fit and rapid break-in. Notched heel area of the glove allows for a more secure and precise grip while stick handling or shooting for added performance. Internal wrist cinch strapping for added control and security. Two piece back hand padding with high density foam over the fingers along with a finger tip deflector ramp to provide further protection to the finger tips. Wide cuff

opening provides added wrist mobility and range of motion for added performance. Select materials provide optimal durability so the glove keeps its shape over time and are water resistant to limit water absorption to keep the glove lighter.

- Neoprene inner hand with adjustment strap
- Molded front cuff for puck deflection
- Pro size complies with all new league rule requirements
- Molded front and back thumb protection
- Molded internal palm plastic for improved glove shape
- Select materials allow for custom heat forming
- Pro spec construction with reinforced stiffer finger perimeter and beefed up palm
- Thumb tunnel design for added control
- No binding cuff for added solid surface blocking area

The back hand features three piece construction with HD foam over the back of the fingers for slash protection and has a finger tip deflecting ramp to further protect the finger tips from shots. The back hand padding can also be fully opened to facilitate quicker drying. Deep design dual bar T-web limits puck spin for improved puck retention in the pocket.

- Unique thumb tunnel for added glove control
- Large catching surface with greater volume
- Full access opening back hand padding for protection that can be opened for easy drying
- Dual back hand control straps
- Heat moldable for custom fit
- Full flex seams in palm and internal padding for quick precise break-in
- No binding cuff design for added blocking area
- Flared molded front cuff for added puck deflecting and added wrist mobility

CATCH GLOVES

T 8400 EPIC JUNIOR

The T 8400 Epic junior catch glove features advanced anatomical design to give superior control and balance. The glove features an internal Neoprene glove with adjustment strapping that provides for custom hand adjustment and alignment that results in superior control to give positive closing action for superior puck retention. Extra wide glove face design provides added net coverage and large T-web pocket for improved puck control and retention. Select materials allow the glove to be heat-formed and custom fitted to the individual goaltender's hand for the ultimate fit and rapid break-in. Notched heel area of the glove allows for a more secure and precise grip while stick handling or shooting for added performance. Internal wrist cinch strapping for added control and security. Two piece back hand padding for protection and flexibility. Wide cuff opening provides added wrist mobility and range of motion for added performance.

- Neoprene inner hand with adjustment strap
- Molded front cuff for puck deflection
- Molded front and back thumb protection
- Molded internal palm plastic for improved glove shape
- Select materials allow for custom heat forming
- No binding cuff for added solid surface blocking area

THESE STANDARD COLORS AVAILABLE

T 7100 VELOCITY YOUTH

The T 7100 catch glove is designed and constructed to allow for quick and easy closing which allows young goaltenders to better control the puck while catching. Internal padding with soft sting guard layering and molded plastic in the palm and thumb for added protection. Internal wrist strap provides added control and security for improved glove control. External padding covers the back of the hand for added slash protection while covering pucks along the ice.

- Large deep T-web design
- Molded thumb and palm protection
- Internal wrist strap system
- Available in color as shown

Velocity

BLOCKERS

B 7500 VELOCITY 3

The Velocity 3 blocker has been optimized to present a larger blocking surface by keeping the board positioned more square vertically to the puck position on the ice. This is done by rotating the hand position at the wrist area to tilt the board forward at the wrist attachment point giving the glove a better blocking angle to the puck with our unique face forward concept. Beveled board edges on all sides, reduces weight and moves the center of balance directly over the back of the hand for improved glove control and balance. The bottom taper improves the glove positioning during paddle down moves to the ice. Large side hand protection with puck deflector rail features an air support cushion to keep the side shield square to the edge of the glove and adds blocking surface and protection to the inner side of the hand. Articulating finger protection and large side index finger protector gives excellent stick grip for added control and protection. Reinforced palm

with added padding limits stick vibration from hard shots and vented side gussets on the palm work to dissipate heat and facilitate quicker drying.

- Large side plate with deflector rail
- Tilted board design for added blocking ability
- Light weight balanced design with beveled edges to reduce weight
- Reinforced thumb protection
- Full side shield for added net coverage and protection
- Air cushion protection on back of hand
- Tapered bottom board
- Articulating cuff design
- Vented palm construction for heat dispersal
- Adjustable wrist strap for added glove control

BLOCKERS

ICEBERG

PULSE

B 8800 EPIC

The B8800 Epic pro blocker features a large flat profile side thumb plate that provides extra protection and added blocking surface area on the inner edge and side of the glove. The blocking surface features a larger aggressive top board flare for added puck deflection on high shots to reduced puck skip over. Beveled edges on the back side of the blocking board, reduces weight along the perimeter of the board and improves the balance and feel of the glove. The bottom of the board is tapered to allow easy transition to the ice during paddle down moves. Full pro-spec construction features pro regulation sizing and extra reinforcement in the thumb side plate and fingers for added protection and solid puck deflection. Wide articulating cuff opening which adds to wrist mobility. Full split design finger protectors provide increased

protection and full articulation for positive stick grip and control.

- Special high density internal board for light weight
- Meets all new league rule requirements
- Full Pro-spec construction for added performance
- Reduced perimeter weight for balance and control
- Large defined top flare
- Air cushion pad behind side plate for added protection
- Articulating cuff for a full range of motion
- Larger side deflector shield
- Tapered bottom edge for paddle down move
- No binding design and construction on board face

LIMITED EDITION SERIES

AVAILABLE ON BOOKING ORDERS ONLY

LIMITED EDITION

VPG 7700 VELOCITY 3

All new for 2009, the Velocity 7700 limited edition pro goal pad model has all the features of our 7500 model plus a new custom design. It features a two piece inner landing area to securely hold the knee in position for more positive movements. New style inner leg channel design features an inside balance wedge that allows for improved balance and stability when the pads are positioned on the inside edges on the ice. New narrower profile outer side panel reduces weight. New lower profile inner balance stabilizer provides a secure landing area on the inner edge of the pad and facilitates quicker movement across the ice.

- Large profile outer rolls to prevent puck skip over
- New balance stabilizer design
- Lighter weight
- New limited edition graphics
- Wedge shaped inner leg cradle
- New knee cradle with adjustment strap

LIMITED EDITION

Velocity

VPG 7407 VELOCITY

The New 7407 goal pad is our limited edition of our 7400 series goal pad. The 7407 features plus one sizing with one inch taller thigh rise to provide improved five-hole coverage. Ultra high density foam in the outside rolls provides stability and puck deflection. The segmented design of the outer roll provides excellent flex for quick break-in. The pad inner edge features a wide flat landing area to provide excellent pad stability while down on the ice and features a firm high density foam to prevent hard shots from pushing through the five hole area or under the pads while down on the ice. Inner edge balance stabilizer ensures proper pad placement on the inner edge for maximum net coverage and allows for quick lateral movements along the ice. Wide leg channel design aids in pad rotation while keeping the pad fully under control without pad slop to drive the pad into position for improved pad positioning. New limited edition Velocity graphics.

- Plus one sizing
- Flex-Pac internal padding system
- Full knee cradle with double elastic strap and Velcro adjustment
- Curved thigh board
- High density outer roll
- Adjustable knee lifters
- Balance stabilizer with inner five hole for added pad stability
- New limited edition graphics
- Available in Sizes 32"+1", 34"+1", 36"+1", 37"+1"

EPIC

VPG 8606 EPIC

All new for 2009, the 8606 limited edition goal pad features narrow side panels for light weight and lower mass for quicker movements. Flat face front with internal layering of softer foam next to the exterior surface reduces rebounding and gives greater puck control. New limited edition iceberg graphics are constructed of sewn on layers for durability and a unique look. Exterior material on the inner edge and pad front are micro fiber Clarino synthetic for added durability and light weight. Full length leg and knee cradles feature adjustable knee and leg lifters that allow precise adjustment of the leg height off the ice when going down on the pads inner edge. The narrow side panels reduce drag on the inner edge to provide for faster pad slide and movement across the ice surface. Knee hugger curve at the top portion of the pad keeps the pad positioned closer to the knees for added control and functions to reduce openings in the five-hole area while going down to the ice. Large square shaped outside vertical roll prevents puck skip over and square shape pad body increases overall blocking surface to give maximum net coverage.

- Balanced design for lighter feel and quick response
- Flex-Pac internal padding
- Rebound control front surface
- Narrow side panels
- Wide square shape
- Iceberg graphics
- Clarino synthetic material on exterior
- Available in sizes 30"+1", 32"+1", 34"+1", 36"+1"

LIMITED EDITION

VPG 7207 VELOCITY

The new 7207 Velocity junior goal pad features pro style plus one sizing with a longer thigh rise to maximize file hole coverage while down on the ice. Inner edge of the pad features a full balance stabilizer and landing pad to position the pad on the inside edge to present the largest surface area for greater net coverage. Segmented outside vertical rolls allow for flexibility and keeps the thigh portion of the pad providing knee and five-hole coverage. Full knee cradle and knee lifter to position the knee off the ice to allow for maximum leg extension while reducing stress on the knee and hip. New limited edition graphics for a unique look. Full micro fiber Clarino exterior for light weight durability.

- Plus one inch tall thigh rises on all sizes
- Flex-Pac internal foam padding
- Full knee cradle with double elastic strap
- Curved thigh board
- Balance stabilizer on inside edge
- New limited edition graphics
- Available in sizes 26"+1", 28"+1", 30"+1"

VPG 8404 EPIC

The Epic 8404 junior leg pad features a narrow side profile design and construction to reduce weight, speed break-in and provide less mass for quicker movement. Flat front pad face design with internal layering of softer foam next to the surface to reduce rebounding and give greater puck control. New limited edition iceberg graphics are fully sewn construction. The pad front and inner edge are constructed with micro fiber Clarino synthetic for light weight durability. The narrower side profile reduces drag on the inner edge to provide faster pad slide and movement across the ice. Knee hugger curve at the top portion of the pad keeps the pad positioned closer to the knee for added control and functions to reduce openings in the five-hole area while going down to the ice.

- Balanced design for lighter feel and quick response
- Rebound control internal padding
- Narrow side panel profile
- Square outside roll for maximum net converge
- Clarino micro fiber exterior for improved performance
- Limited edition iceberg graphics
- Available in sizes 23"+1", 25"+1", 27"+1", 29"+1"

LIMITED EDITION

T 7700 VELOCITY

All new for 2009, the Velocity T 7700 limited edition catch glove is designed with a deep contoured catch surface to give more depth to the glove for puck retention. Large wide profile thumb mold adds blocking surface, functions to give added impact dispersal, and is angled to direct pucks into the pocket. Pre-shaped mechanical closure provides for positive quick break-in. Pro spec construction provides added stability with increased palm protection and reinforced finger perimeter. Wide heel opening allows for added stick control while shooting or stick handling. Three piece back hand protection with finger tip deflector features Velcro adjustment straps and can be fully opened for quick drying. Dual internal wrist and hand straps add control for quick movement. Mid curve front blocking cuff provides maximum blocking surface. Wide opening at the back cuff gives added space for arm padding, and provides increased wrist movement. Large double bar T-web slows puck rotation for improved catching. The perimeter of the glove is designed to fully seal along the ice while covering pucks.

- Light weight and perimeter balanced
- Pre-formed shape
- Three piece back hand protection with HD padding over fingers
- Internal hand straps
- Heat moldable for custom fit
- Mid curve front cuff increases blocking surface
- New limited edition graphics

T 7407 VELOCITY

The new T 7407 catch glove features a large catching surface with a deep dimensional shape to create added volume in the palm and pocket for improved catching and puck retention. Internal hand constructed with individual index and mid finger stall for positive control with mesh covering for quick drying and reduced heat build up in the hand. Internal back hand and wrist straps provide for adjustability and added control for positive quick glove movement. Unique thumb tunnel design provides added control into the thumb to maximize power transfer for quicker closing. Wide cuff opening with flared cuff allows for added room, facilitates quicker wrist rotation and improved glove positioning. The back hand padding is constructed with a three piece design for flexibility, features a high density finger tip deflector pad and can be fully opened to provide for quicker drying. Dual bar T-web limits puck spin for improved puck retention in the pocket.

- Thumb tunnel design for more positive glove control
- Large catch surface to maximize blocking area
- Dual internal hand straps
- Heat moldable for custom fit
- No binding cuff creates larger surface area
- Full back hand protection
- New limited edition graphics

LIMITED EDITION

T 8606 EPIC

All new for 2009, the T 8606 catch glove uses a micro fiber synthetic covering in the glove body and pocket to enhance performance and durability. Full sewn in iceberg limited edition graphics provide a unique custom look. Internal Neoprene glove with adjustment straps provide a custom hand adjustment, which results in superior glove control and quick precise movements. New vented mesh internal finger stalls for quick drying provides ventilation for heat reduction. Notched lower thumb and heel area for stick placement while shooting or stick handling. Dual internal hand straps are adjustable for precise control and comfort. Heat moldable to allow for a custom fit and quicker break-in.

- Neoprene inner hand for added control
- Molded front deflecting cuff
- Large wrist area for added mobility
- Select materials to allow for custom heat forming
- Two piece external back hand protection with finger tip guard
- New Iceberg graphics

T 7207 VELOCITY

The new 7207 junior size catch glove features a large catch surface with a deeper designed shape to create more volume in the palm and pocket for puck retention. Designed to give full perimeter closure when covering the puck on the ice with no gaps along the edge. Internal hand features, mesh finger construction for ventilation along with an adjustable knuckle and finger strap to allow for a custom fit. The internal back hand also features back hand and wrist strap to secure the glove for control and to limit glove twisting from puck impacts at the edges from hard shots. Thumb tunnel system provides power transfer to speed glove closure for improved catching performance. Three piece back hand protection can be fully opened to speed drying times. New limited edition Velocity graphics and micro fiber Clarino synthetic materials for light weight durability.

- Easy break-in
- Curved molded deflecting cuff
- Dual hand strap adjustment points
- Heat moldable for custom fit
- No-binding cuff for added blocking surface
- Full three piece back hand protection
- Large catch surface with deep pocket
- New limited edition graphics

T 8404 EPIC

New for 2009, the Epic 8404 catch glove uses a Clarino micro fiber exterior front and pocket to enhance performance, durability and reduce weight. New limited edition iceberg graphics are fully stitched for added durability. Extra wide glove face design provides added net coverage and large T-web pocket for improved puck control. Select materials allow the glove to be heat molded for a custom fit and quicker break-in.

- Inner glove hand design for added control
- Molded front and back thumb for protection
- Molded front flared cuff
- No-binding cuff for added blocking surface
- Heat moldable
- New iceberg graphics

LIMITED EDITION

B 7700 VELOCITY

All new for 2009, the Velocity B 7700 limited edition blocker glove features a new no binding board with small radius corners to increase the usable blocking surface. Our unique face forward design tilts the top of the board away from the hand at the wrist area, which gives the glove a better blocking angle to the puck. Beveled board edged on all sides reduces weight and improves balance by moving the center of balance to the center of the hand. Bottom board taper improves the glove positioning while down on the ice in a paddle down move. Large side shield with HD foam and plastic reinforcement provides added protection, and adds blocking surface. New palm with curved fingers provides improved grip for added stick control. Vented side gusset allows for cooler play, and quick drying plus added comfort. New two-piece articulating finger protectors with side shields increase protection, and provides added finger mobility.

- New no binding blocking board
- Lightweight low perimeter weight
- Curved fingers for improved stick grip
- Wide cuff opening and top bevel
- Tapered bottom board
- Articulated cuff
- Adjustable wrist strap
- Full Pro Spec construction
- New limited edition graphics

B 7407 VELOCITY

The new B 7407 blocker is designed to tilt the board face forward to present an improved blocking position this maximizes the blocking surface. Beveled board edges, reduces weight and improves balance by reducing perimeter weight. Tapered bottom edge improves glove positioning while making paddle down moves on the ice surface. Large side hand impact shield with puck deflector rail provides increased protection and gives added net coverage. Articulating finger protection and large side index finger protector are designed to allow for excellent stick grip for added control. Reinforced palm with vented side gussets to dissipate heat and for quick drying.

- Large side plate with deflector rail
- Tilted face forward design
- Beveled edges for improved balance and lighter weight
- Articulating cuff
- Tapered bottom board
- Air cushion padding on back of hand

LIMITED EDITION

B 8606 EPIC

The new B 8606 blocker features a large flat inner side thumb shield for added protection to the side of the hand and allows for added blocking area. The blocking surface features a larger top flare for added puck deflection to reduce puck skip over. Beveled edged on all sides, reduces perimeter weight and moves the balance point closer to the hand for improved feel and control while reducing overall weight. Cushion padding over the back of the hand for added protection and to reduce rebounds. Wide cuff opening allows increased wrist movement for stick handling and shooting performance. Full split finger protectors with HD inserts for added protection and positive stick grip.

- Special high density internal board for light weight and stiffness
- Reduced perimeter weight
- Large top flare
- Articulating flex cuff
- Large side shield
- Tapered bottom edge for paddle down move
- New Iceberg graphics

B 8404 EPIC

The new B 8404 junior blocker features a flat inner side thumb shield for added protection and net coverage. The blocking board has a defined upper board flare to reduce puck skip over. Beveled edges on all sides, reduces board weight and improves balance and feel for improved performance. Wide cuff opening with articulating cuff for added wrist mobility and range of motion. New iceberg graphics with sewn construction for durability.

- Special high density board insert for light weight
- Large side thumb shield
- Reinforced finger protection
- Tapered bottom edge for paddle down move
- Large top board flare
- New iceberg graphics

B 7207 VELOCITY

The B 7207 junior blocker features our face forward design and construction to present a larger blocking surface for more effective net coverage. Beveled board edges, reduces weight and improves balance and feel. Large side impact shield with deflector rail provides increased protection. Articulating finger protection and side index finger protection for greater hand coverage allows for a positive stick grip. Reinforced palm with adjustable wrist strap for added control. New Velocity limited edition graphics.

- Articulating cuff for added wrist mobility
- Curved board design
- Cushioning foam on the back hand area
- Back hand padding opens for quick drying
- Beveled top side and bottom edge
- New limited edition graphics

BLOCKERS

B 7300 VELOCITY 3 INTERMEDIATE

The Velocity 3 Intermediate sized blocker has been optimized to present a larger blocking surface by keeping the board positioned more square to the puck position on the ice. This is done by rotating the hand position at the wrist area to tilt the board forward at the wrist attachment point, which gives the glove a better blocking angle to the puck. Beveled board edges on all sides, reduces weight and moves the center of balance directly over the back of the hand for improved glove control and balance. The bottom taper improves the glove positioning during paddle down moves to the ice. Large side hand protection with puck deflector rail features an air support cushion to keep the side square to the edge of the glove and add protection. Articulating finger protection and large side index finger protector gives excellent stick grip for added control and protection. Reinforced palm with added padding limits stick vibration from hard shots. Vented side gussets to dissipate heat and facilitate quicker drying.

- Large side plate with deflector rail
- Tilted board design for added blocking ability
- Light weight balanced design with beveled edges to reduce weight
- Reinforced thumb protection
- Air cushion protection on back of hand
- Tapered bottom board
- Articulating cuff design
- Vented palm construction for heat dispersal
- Adjustable wrist strap for added glove control

B 7200 VELOCITY JUNIOR

The Velocity 7200 junior blocker has been optimized to present a larger blocking surface by keeping the board positioned more square to the puck position on the ice. This is done by rotating the hand position at the wrist area to tilt the board forward at the wrist attachment point, which gives the glove a better blocking angle to the puck. Beveled board edges on all sides, reduces weight and moves the center of balance directly over the back of the hand for improved glove control and balance. The bottom taper improves the glove positioning during paddle down moves to the ice. Large side hand protection with puck deflector rail provides added net coverage and protection. Articulating finger protection and large side index finger protector gives excellent stick grip for added control and protection. Reinforced palm with vented side gussets to dissipate heat and facilitate quicker drying.

- Large side plate with deflector rail
- Tilted face forward board design for added blocking ability
- Light weight balanced design with beveled edges to reduce weight
- Reinforced thumb protection
- Air cushion protection on back of hand
- Tapered bottom board
- Articulating cuff design
- Vented palm construction for heat dispersal
- Adjustable wrist strap for added glove control

THESE STANDARD COLORS AVAILABLE

BLOCKERS

B 8400 EPIC JUNIOR

The new B8400 Epic junior blocker features a large flat profile side thumb plate that provides extra protection and added blocking surface area on the inner edge of the glove. The blocking board surface features larger top board flare for added puck deflection on high shots to reduced puck skip over. Beveled edges on the back side of the blocking board, reduces weight along the perimeter of the board and improves the balance and feel of the glove. The bottom of the board is tapered to allow easy transition to the ice during paddle down moves. Wide articulating cuff opening adds to wrist mobility which provides added range of motion. HD foam reinforced split design finger protectors provide increased protection and full articulation for positive stick grip and control.

- Special high density internal board for light weight
- Reduced perimeter weight for balance and control
- Large defined top flare
- Articulating cuff for a full range of motion
- Larger side deflector shield
- Tapered bottom edge for paddle down move

THESE STANDARD COLORS AVAILABLE

B 7100 VELOCITY YOUTH

The B 7100 youth blocker is designed with the younger goaltender in mind. Lower hand position allows for easy stick pick-up and paddle down moves to the ice. Large top board curve gives added wrist movement and allows for greater mobility. Full thickness blocking surface along with molded plastic reinforced fingers and thumb for added protection.

- Side hand shield for added net coverage and protection
- Split finger protectors for hand dexterity and movement
- Durable quick drying palm
- Available in color as shown

Velocity

GOAL PANTS

P 7500 VELOCITY 3

The P 7500 Velocity 3 goal pant is designed to achieve the maximum amount of net coverage with minimal bulk and lightweight. The Velocity goal pant features our unique thigh-cradle technology that provides stability to the thigh guards and limits thigh pad twisting for greater puck stopping and deflecting. Large five-hole rolls with internal support padding give quick rapid closure to minimize openings in the five-hole. Full stretch crotch area and inner thigh area provide for increased flex and ventilation. Rear leg split prevents the thigh area from being displaced while going down to the ice to keep thigh guards blocking as much area as possible. Low rebound foams provide for quick break-in and comfort and absorb impact to limit rebounds. Wide profile design and contoured waistband improves pant and chest pad interaction and increases flexibility.

- Thigh cradle technology for enhanced performance
- Lace-up fly area for added adjustment
- Adjustable belt for customized fit
- Rear leg split to optimize performance
- Inner leg and crotch stretch material
- Front abdominal protection
- Available in sizes SM (36-38), MED (40-42), LG (44-46), XLG (48-50), XXLG (52-54)

Note: add 8-10 inches to your actual waist size then match to sizing in parenthesis.

P 8800 EPIC

The Epic goal pant is designed for a looser fit with large thigh guards that features a slight curve for increased protection and stability to prevent puck skip by on the thigh pad edges. High Density foam five-hole roll blocks provide for inner thigh protection. Wide front pant profile features HD foam inserts in the side groin that provides added flexibility and maximum protection. Contoured front waist and belly pad for easy movements in the crouched position. Large molded hip plastic and extended tail bone padding for extra protection. Rear leg splits prevents the pant thighs from being displaced while going down to the ice and allow the pant to keep the wide profile for maximum blocking in all positions.

- High density inner thigh five-hole rolls
- Side groin HD protection
- Front abdominal padding
- Lightweight with sport mesh internal lining
- Lace up front for added adjustment
- Adjustable belt
- Available in sizes SM (36-38), MED (40-42), LG (44-46), XLG (48-50), XXLG (52-54)

NOTE: add 8 to 10 inches to actual waist size then match to sizing in parenthesis to find proper size; this model of goal pant is designed to be worn loose fitting.

GOAL PANTS

P 7400 VELOCITY

The 7400 Velocity goal pant is constructed and tailored specifically to work with the movements of a goaltender to give optimum performance and comfort. Wide thigh guards feature a slight curve and are designed to give maximum blocking surface and fill in the five-hole area when going down to the ice surface. Sport mesh lining for low water absorption and quick drying. Large side abdominal floating pads extend down to the side groin area for added protection and give the pant flexibility while in a crouched position. Front contoured waist gives a lower front profile for chest pad fit and easier bending while in a crouched position.

- Inner thigh HD blocks with internal support padding
- Adjustable belt with double front pull adjustment
- Low profile thigh guards fit well under tall leg pads
- Extended tail bone protection
- Full stretch crotch and inner leg panels for flexibility
- Available in sizes XS (32-34), SM (36-38), MED (40-42), LG (44-46), XLG (48-50), XXLG (52-54)

NOTE: add 8 to 10 inches to actual waist size then match to sizing in parenthesis to find proper size

Velocity

P 8600 EPIC

The EPIC 8600 goal pant features a wide profile cut for added room and comfort in the waist and leg areas for full freedom of movement. Wide thigh guards with internal high density five-hole blocks and side slash guards with cushion padding for added protection. Sport mesh internal lining provides for added comfort and quick drying. Side groin protection with sewn in flex blocks with high density padding for added protection. The 8600 pant is designed for a softer loose fit with a shorter thigh length and slightly tapered waist.

- Molded hips and kidney protection
- Large padded tail bone with cushion layering
- Cool fit mesh lining
- Wide lower cut with large stretch panel in crotch area
- External padded belt
- Flexing rear top tail bone extension pad
- Inside thigh protection
- Available in sizes SM (36-38), MED (40-42), LG (44-46), XLG (48-50)

Note: add 8-10 inches to your actual waist size then match to sizing in parenthesis.

GOAL PANTS

P 7300 VELOCITY INTERMEDIATE

The 7300 Velocity intermediate goal pant is designed and optimized for performance and protection. Large five-hole blocks with internal support padding provide for added protection and faster more solid closing of the five-hole area. Rear leg splits in the pant shell help keep the thigh guards positioned properly while going down to the ice for added net coverage. Rear flexing tail bone top extension adds to upper pant flexibility for increased range of motion. Side groin floating flex pads add blocking area and increase protection.

- Lace-up front for added adjustment
- Intermediate sizing and increased protection
- Adjustable belt for customized fit
- Rear leg split to optimize performance
- High density inner thigh protection
- Large thigh guards with cushion padding
- Available in sizes MED (24-26), LG (26-28), XL (28-30), XXL (30-32)

P 8400 EPIC JUNIOR

The EPIC 8400 junior sized goal pant features a wide profile cut for added room and comfort in the waist and leg areas for full freedom of movement. Wide thigh guards with internal high density five-hole blocks and side slash guards with cushion padding for added protection. Sport mesh internal lining provides added comfort and quick drying. Side groin protection with sewn in flex blocks with high density padding for added protection. The 8400 pant is designed for a softer loose fit with a shorter thigh length and slightly tapered waist.

- Molded hips and kidney protection
- Large padded tail bone with cushion layering
- Cool fit mesh lining
- Wide lower cut with large stretch panel in crotch area
- External padded belt
- Flexing rear top tail bone extension pad
- Inside thigh protection
- Available in sizes SM (20-22), MED (24-26), LG (26-28), XLG (28-30)

GOAL STICKS

VGS 7700 COMPOSITE GOAL STICK

The new 7700 Velocity goal stick features a construction of carbon fiber and fiberglass for light weight with superior balance and feel. The blade is constructed with special wide weave high tensile strength fibers to provide added strength and feel. The blade features internal ribs for added durability to limit twisting and features a high density internal foam core to absorb shock to reduce rebounding. The paddle area is shaped with a thin profile design and constructed with a full composite exterior with reinforced edging. It has a high density internal foam core to dampen impacts and prevent unwanted paddle flex. This gives the stick incredible response by preventing twisting and also provides additional stiffness for shooting and poke checking. Molded under high pressure to ensure resin transfer and flow through all layers for consistency and strength.

- Paddle heights 25", 26", 27"
- Mid blade twist curve
- Lighter weight construction
- Rounded heel for shooting and puck handling
- Available in Silver or Yellow

Mid Blade Twist Curve

GOAL STICKS

VGS 7500 COMPOSITE GOAL STICK

The 7500 goal stick has full graphite carbon fiber and fiberglass construction for extreme light weight and superior balance and feel. The blade is constructed with special high tensile strength fibers and resins with internal ribs for added strength. It features a high density internal core to absorb shock to reduce rebounding and provides excellent feel and control of the puck. The paddle area is shaped with a thin profile design and is constructed with a full composite exterior. It has a high density internal foam core to dampen impacts and prevent unwanted paddle flex. This gives the stick incredible response by preventing torsional twisting and also provides additional stiffness for shooting and poke checking. The edges of the paddle are reinforced with additional layers of fiber to limit chipping and add strength. The molding process is completed under extreme high pressure and heat to ensure full wet out of all the fibers, to ensure complete structural bonding of all the layers of fiber and adhesion to the internal foam core for added durability.

- Paddle height available in 25", 26", 27"
- Full composite construction for light weight
- Heel twist blade curve
- Rounded shoulder at top of paddle
- Internal foam core for low vibration
- Rounded heel area for easy shooting and stick handling
- Available in opposite hand curve
- Available in Silver or Black

Heal Twist Curve

GOAL STICKS

VGS 7400 FOAM CORE

The 7400 goal stick features a foam core internal paddle and blade blended with a laminated Aspen wood handle for excellent balance and feel. The foam core is compression bonded under heat and pressure and molded with a glass exterior to provide stiffness and durability.

- Available in paddle heights 24", 25", 26", 27"
- Heel twist curve with rounded heel and square shape blade end
- Light weight foam core construction

Mid Blade Twist Curve

GOAL STICKS

VGS 8600 WOOD GOAL STICK

The 8600 goal stick is of classic wood construction manufactured to give the lightest weight, balance and superior feel. Laminated Birch handle provides flexibility and strength to aid in shooting. Wood paddle is fiberglass reinforced with an Aramid fiber reinforced inner edge to resist chipping for greater durability. Reinforced blade gives consistent shape for predictable play.

- Available in paddle heights 24", 25", 26", 27"
- Mid blade curve
- Pro player patterns

GOAL MASKS

VM 8800

The VM 8800 goal mask is constructed with a carbon fiber and fiberglass woven glass shell for lighter weight and added strength. The shell is high pressure molded and heat set to provide complete uniformity to the shell thickness to control glass saturation giving consistent strength and weight. Contoured design reduces flat spots to dissipate impacts and provide maximum protection and shell rigidity. The chin and jaw line are a low profile design with a flared bottom edge to allow the unit to tuck into the chest area tighter for added protection and allow additional adjustment to the internal chin cup. The mask shape is designed to provide optimum fit to give increased visibility with a wider field of view. Air holes and face opening are designed to provide maximum ventilation to reduce heat build up. Internal chin strap provides extra security and easy adjustment. Cage bars are positioned to obtain maximum visibility while in the crouched position and constructed of stainless steel for added durability. The low luster finish provides optimal visibility and reduces glare for lighting. Internal padding of Vinyl niytrile foams allow for lightweight, comfort and protection.

- Available in standard colors: Black, White, Red, Navy
- Size: Adult STD

Red Reaper

Navy Reaper

Black Reaper

VM 8800 CERT. CAT-EYE

The 8800 certified Cat-eye model features the same design shell and internal construction as our 8800 model. The VM 8800 Cat-eye features a certified style cage.

- Available in standard colors: Black, White, Red, Navy
- Size: Adult STD

VM 8800 PC

The 8800 PC goal mask features the same design shell and internal construction as our 8800 model. The VM 8800 PC features a pro style cage with large eyehole openings for increased visibility. The center section of the cage features double bars for added strength.

- Available in standard colors: Black, White, Red, Navy
- Size: Adult STD

GOAL MASKS

VM 7500

The VM 7500 goal mask is designed and engineered to create optimal visibility. The recessed cage area moves the cage closer to the eyes which improves vision and gives wider sight lines. Anatomically designed for optimal fit and performance with raised mold lines that reduces flat spots for superior puck deflection to lessen impacts. High impact shell is constructed in special high strength Lexan material that is custom engineered for greater impact resistance. The shell is engineered with precisely located ridge lines that add strength and reduce shell flex under high impacts. The jaw area is profiled with a flared lower short chin to give superior downward visibility and allows the mask to be fitted closer to the face for improved visibility. The chin design allows the mask to be tucked in tight to the chest to provide more protection and allows for added adjustment to the chin cup for a more custom fit. Large air vent holes and face opening are designed to provide maximum ventilation to reduce heat build up. The cage is constructed entirely of low luster stainless steel for added durability and reduced glare for optimal visibility. High density pro style vinyl nitril foam liner provides durability and is low water absorbing to provide light weight and comfort.

- Available in standard colors White, Black, Red, Navy
- Adult sizes SM, STD, XLG and Junior
- Available in graphics as shown
- Available with straight bar cage and certified cat-eye style cage
- Full CSA, HECC and CE certification

GOAL MASKS

VM 7400

The VM 7400 goal mask is designed and engineered to create optimal visibility with a recessed cage area that improves peripheral vision and gives wider sight lines. Anatomically designed for optimal fit and performance with raised mold lines that reduce flat spots for superior puck deflection to lessen impacts. High impact shell constructed with a specially engineered high strength injected Lexan material is custom engineered for greater impact resistance. The shell is engineered with precisely located ridge lines that add strength and reduce shell flex under high impacts. The design provides maximum downward visibility and the flare at the bottom of the chin allows the mask to be tucked in tighter to the chest for added coverage. Air vent holes and face opening are designed to provide maximum ventilation to reduce heat build up. The cage is constructed from high tensile carbon steel and features a silver powder coated surface for added durability.

- Available in Black or White
- Sizes: Adult STD, Junior
- Fully CSA, HECC, and CE certified

MB 7500

Padded protective carry bag with internal spare parts pocket. Large heavy duty zipper and molded carry handle.

GOAL CUPS

VGC 8800 EPIC

The Epic 8800 goal cup features advanced double cup design for the ultimate in protection. The internal cup is the advanced design from Shock Doctor Sports Technology that provides multi stage impact protection. The outer cup is a combination of half inch foam and plastic to dissipate and absorb initial impact for true double layered protection. Contoured waist sectioned area for added flexibility and comfort. Adjustable waist and leg support straps. Durable sport mesh and nylon construction. Available in three colors: standard Black, Black/Red and Black/Navy. Fits waist sizes 32" to 44". Also available in an intermediate size.

VGC 8800 Intermediate - fits waist sizes 25" to 32".

VGC 7500 VELOCITY 3

The Velocity goal cup features a contoured top waist with high-density padding. Layered foam padding throughout for additional comfort and protection. Large side cushion bumpers and banana-style cup features foam edge bumpers for greater protection. Available in three colors: Black/Silver, Red/Silver, and Navy/Silver. Fits waist sizes 32" to 44".

VGC 7300 - fits waist sizes 25" to 32".

VGC 7400

All new design for 2009 the 7400 Velocity goal cup features a contoured front waist band with HD foam protection. Large style contoured shaped cup with foam edging with additional side impact bumpers for added protection. Adjustable waist band and leg straps fits waist sizes 30" to 44".

VGC 7200

All new junior Velocity goal cup traditional style design features a contoured front waist band with HD foam for added protection. Junior size goal cup with foam edging and additional side bumpers for added protection. Adjustable waist band and leg straps fits waist sizes 20" to 31".

WPP 900

The women's pelvic protector features a high-density reinforced lower abdominal area contoured for comfort and fit, a full adjustable waist strap with Velcro closure and molded plastic protection with foam padding.

- Durable nylon exterior
- Internal molded foam and plastic
- Fits waist sizes: 26" to 36"

GOAL BAGS

BG 7500

Super sized wheeled goal bag is designed to fit an entire set of adult sized goal equipment. Reinforced rip stop nylon construction and double reinforced in wear and stress areas. Webbing reinforced body to distribute weight and add strength, added rivets to carry handles for increased durability. Three wheel design with larger wheels to help keep the bag from dragging when heavily loaded. Reinforced bottom with full length stiffeners and bottom reinforced with plastic to support the weight of the bag when fully loaded with equipment. Webbed straps across the top of the bag allow the diameter of the bag to be adjusted and tightened which keeps the contents centered in the bag for easier pulling or carrying of the bag.

- Dimensions: 43" long x 21" high x 20" wide
- Available in black only

BG 8800

All new for 2009, the BG 8800 super sized goal bag is designed to fit an entire set of adult sized goal equipment. The bag features 1680 denier nylon construction and reinforced in wear and stress areas on the corners and bottom. Heavy duty webbing and straps with added rivets to carry handles for increased durability. Three wheel design with larger wheels to help keep the bag from dragging when heavily loaded. Large number 10 zippered top with wide opening to access interior. Vertical bottom stiffeners and bottom reinforced with plastic to support the weight of the bag when fully loaded with equipment. Interior pockets provide added storage.

- Dimensions: 43" x 21" x 20"
- Available in dark silver with blue and white graphics only.

BG 7400

The 7400 goal bag is extra super sized to hold an entire set of adult size equipment. The bag features extra heavy 1680 denier nylon construction with all internal seams double stitched and bound for added strength. Large number ten coil zipper for added strength and allows the bag to be fully opened for easy access. Heavy duty webbing reinforces the sides and ends of the bag. Large nylon carry handles with box stitched reinforced seams for durability and reinforced hand grasp handles at each end. Reinforced bottom corners with air vent grommets add durability and strength to the construction. The entire bottom surface of the bag is double layered for added strength and water resistance.

- Dimension 44" x 22" x 24"
- Extra rugged 1680 nylon construction
- Large number 10 zipper
- Reinforced corners
- Internal mesh removable wash bag
- Available in black only

GOAL BAGS

BG 7300

Large intermediate sized goal bag with three wheel design will fit a full set of equipment with 31" or smaller leg pads. Constructed of rip stop nylon with double reinforced wear and stress areas. Webbing reinforced body to distribute weight and add strength and durability. Reinforced bottom with stiffeners and bottom reinforced with a full layer of plastic to support the weight of the bag when fully loaded with equipment. Webbed straps across the top of the bag allow the diameter of the bag to be adjusted and tightened which keeps the contents centered in the bag for easier pulling or carrying of the bag.

- Dimensions: 35" x 18" x 20"
- Available in black only

BG 8400

All new large junior sized goal bag with two wheel design will fit a full set of equipment with 31" or smaller leg pads. Constructed of 1680 denier nylon with reinforced wear and stress areas. Reinforced bottom with vertical stiffeners and bottom reinforced with a full layer of plastic to support the weight of the bag when fully loaded with equipment.

- Dimensions: 34" x 18" x 20"
- Available in dark silver with blue and white graphics only

ACCESSORIES

VPC 7400

The 7400 clavicle protector has high-density plastic and foam layered padding and an adjustable neck strap with durable soft textured sport mesh vented lining and nylon exterior.

- Available in assorted colors

VPC 7200

- Junior size model

VPC 8000

Shirt style clavicle and neck protection holds unit more securely in place for added protection and comfort. Mesh outer shirt construction to reduce heat build up, cut resistant BNQ certified design.

- Available in sizes SM, MED, LG. Black only

VPC 7000

The 7000 clavicle protector has a full ballistic nylon exterior, Velcro adjustable closure and soft internal padding with high density foams for shock dispersal. BNQ certified.

- Available in Adult sizes: MED, LG
- BNQ certified
- Available in Black, Navy, Red

VPC 7000 JR

- BNQ certified
- Available in Black, Navy, Red
- Available in one size only

VTG 7500

The 7500 throat shield is designed with a curved and flared chin area that allows the unit to fit tighter to the upper chest for added protection and allows the unit to slide across the jersey without catching and limiting head motion. Molded in Lexan polycarbonate for maximum durability, shock resistance and clarity.

- Available in Clear, Smoke tint, Blue tint, Red tint.

ACCESSORIES

VKP 7700

All new for 2009 the VKP 7700 knee and thigh guard features a three section design for a close fit. Plastic reinforced thigh padding in two sections and separate lower knee section with a low profile for a close knee fit for control and allows the pad to sit into the leg pad knee cradle. Available in Black, blue or Red and features three adjustable leg straps. Also available in an intermediate model **VKP 7300**

VKP 8800

New design for 2009 the VKP 8800 features a two piece design with fully molded knee cap for added protection. Molded thigh guard wraps the inner thigh for added coverage. The inner knee features side knee caps with wrap around padding for side inner and outer knee protection, fully adjustable straps and inner grip lining to prevent pad slipping, available in Black, blue, or red. Also available in a junior model **VKP 8400**

VKP 8400

VKP 7500

The new VKP 7500 knee and thigh protector features a molded shape to allow the protector to fit under the goal pants.

VKP 7000

Thigh guard features five-hole blocking design with ultra high density foam protection that also provides light weight. Adjustable strap with buckle, lace on attachment, fits any Vaughn adult size leg pad. Available in Black, Blue, Red, and White. Also available in a smaller intermediate size **VKP 7070**

ACCESSORIES

VJ 7500

The VJ 7500 goal jersey features a large body fit and wide arm area for added room to properly fit over the arm and chest protector. It is constructed of durable Micromesh material.

- Available in colors Black/White, Blue/Black/White and Red/Black/White
- Available in Adult sizes LG, XLG, XXLG.

VJ 7300

Intermediate/Junior sized version of the adult model. Constructed with Micromesh material for durability and ventilation. Wide body and arm fit for added room to properly fit over arm and chest protector.

- Available in colors Black/White, Blue/Black/White, Red/Black/White
- Available in Junior sizes LG, XLG.

REPLACEMENT PARTS

We offer a full line of replacement parts for all Vaughn products, including: leg straps, toe straps and buckles, tie on toe assemblies, knee spacers, blocker palms, mask hardware, sweatbands, chin cups and replacement cages, plastic hardware for arm and chest protectors and replacement blocker board inserts.

ACCESSORIES

VHU 8800

Performance underwear designed specifically for the needs of a goaltender. Specific goaltender cut for full freedom of movement, with high performance micro mesh moisture wicking fabric construction. Special placement of vent mesh reduces heat buildup and increases moisture evaporation for less body heat build up.

- Fast drying materials
- Navy blue color with white print
- Mesh inserts to keep goaltender cooler
- Durable materials for long wear
- Lightweight
- Special specific goaltender cut
- Adult sizes: SM, MED, LG, XLG
